

MT15A

2-way amplified speaker – Bass reflex

Perfect sound with more deeper bass than ever

ref 10025

High sound quality from high frequencies to deepest basses, thanks to the new 15" loudspeaker.

- + Class D and AB bi-amplification
- + Optimised sound propagation thanks to the 120° dispersion
- + 2 simultaneous Inputs (Line/Mic and Line/Aux)
- + Light yet powerful - 400 W RMS for only 18.4 kg

CONNECTORS

- 2 Line inputs with separate volume control
- 1 Line/Mic input
- 1 stereo Aux input via mini jack
- 1 HF/LF control knob

230

MT12A

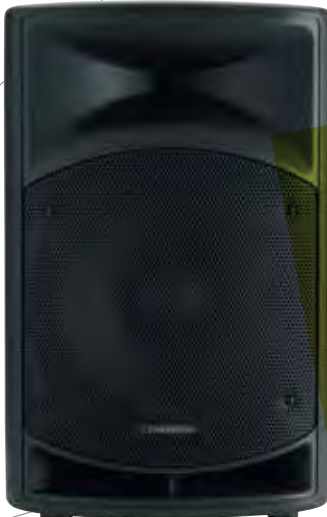

2-way amplified speaker – Bass reflex

An unmatched power-to-weight ratio

ref 9959

Even at a high volume, the MT12A provides a balanced, warm and deep output thanks to its 12" loudspeaker and 1.35" driver.

- + Class D and AB bi-amplification
- + Optimised sound propagation thanks to the 120° dispersion
- + 2 simultaneous Inputs (Line/Mic and Line/Aux)
- + Light yet powerful - 400 W RMS for only 15.1 kg

MT10A

2-way amplified speaker – Bass reflex

Incredibly adaptable

ref 9958

Deep basses, precise trebles and a non-aggressive output, no matter how hard your push it. The MT10A speaker is compact and very handy.

- + Class D and AB bi-amplification
- + Optimised sound propagation thanks to the 120° dispersion
- + 2 simultaneous Inputs (Line/Mic and Line/Aux)
- + Light yet powerful - only 10.2 kg
