PROTECTING AUDIO GEAR

NEW

DECKSAVER® LE 

The Decksaver Light Edition is aimed squarely at the individual DJ market. The covers are still made from super strong polycarbonate but the weight reduction will give DJ's premium protection at an affordable price. Quality has become a trademark of Decksaver Covers. They are driven by this ethos to engineer solutions for the musical pioneers who need them most.

PRO AUDIO PRODUCT RANGE 2014

PROTECTING AUDIO GEAR

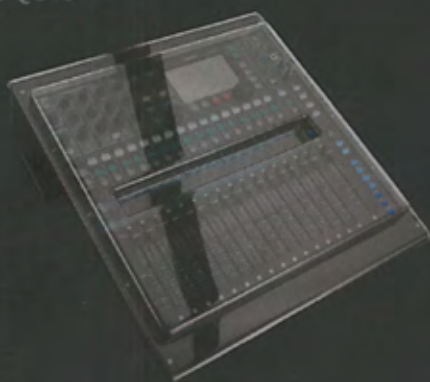

NEW

DECKSAVER™ PRO

Decksaver Pro will cater for the professional audio market – in particular digital mixing desks - offering peace of mind to artists, engineers and studios worldwide. Three new Decksaver covers are in production, designed for the most demanding environments. They are the Allen & Heath QU16, the PreSonus 16.4.2 and the Behringer X32. The new covers are custom made from super strong polycarbonate to fit like a glove. The covers shield faders and knobs from dust and are designed to slide into flight cases for ultimate protection during transportation.
