DESIGN MEETS QUALITY

PREMIUM STANDS BY GRAVITY

Gravity is an award-winning line of stands and accessories for stage and studio use and a brand of the Adam Hall Group. Expert engineers and users have teamed up to create thoroughly professional products with innovative details such as our unique color coding rings.

Continuous research and development result in an ever-growing selection of high-quality stands and accessories that are built for reliable functionality and longevity. Gravity products are made of superior materials only including thick-walled precision tubing, die-cast zinc and double injection molded thermoplastics.

With their durable heavy-duty construction, quick and easy handling and contemporary looks Gravity stands and accessories are the perfect choice when only pro quality products will do. Committed to superior design, workmanship and functionality, we provide a 5-year warranty on all Gravity products.

Gravity - Stand your ground.

- ✓ 5-year warranty on all Gravity products.
- ✓ Stands and accessories for stage and studio use.
- ✓ Professional functionality with innovative details.
- ✓ Designed and engineered in Germany.
- ✓ Ultra durable construction, built to last.
- ✓ High strength precision tubing and die-cast zinc components.
- ✓ Soft touch rubber-coated clamps and knobs.
- ✓ Double injection molded adjustment knobs.
- ✓ Replaceable rubber marker rings for color coding and personalizing your stand.

G-RINGS

THE STYLE FACTOR

At Gravity, we believe that stands are more than just accessories. Ultimately, they are part of the show. That's why we build them for heavy duty use and easy, ergonomic handling. But we also opted for a stylish look that sets them apart from dime-a-dozen stands and makes a strong visual statement.

Gravity products feature our unique sheen green "G" rings that are replaceable in seconds. Available in a variety of attractive colors, you can now customize your stands with additional ring packs and match them to your show's visuals, music genre or personal preference.

What's more, the smart "G" ring concept provides convenient color coding to indicate a stand's intended purpose, placement on stage or the performer to use it. Just pick your colors to add style and distinction to your stands, or choose vanta black "G" rings for a classic, discreet look. Black rings are included with all Gravity products.

GRAVITY ORIGINAL REPLACEMENT PARTS

Built for durability and longevity, Gravity products are constructed from premium quality materials, such as heavy duty aluminum and steel, tough die-cast zinc and hardwearing thermoplastics.

In the unlikely event that the strains of stage and studio use take their toll, we offer a comprehensive selection of original replacement parts.

Gravity replacement parts are field serviceable enabling easy repair to extend the life of your Gravity product and provide an eco-friendly alternative to the planned obsolescence of throwaway designs.

TMS 4321 B

Touring series Tripod Mic Stand Standard Boom

Tours and events often operate under hard conditions and time pressures. Microphone stands are thrown around and not generally treated gently. That's why Gravity Touring series microphone stands are built to be extremely sturdy. Made with especially strong steel tubing with three folding feet. The base and boom mount are made of indestructible die-cast zinc. The solid metal knobs are unlosable, to ensure that the stands survive the hard conditions of touring longer. The microphone stands are also faster to set up and take down. Turning the locking screw just 3/4 quickly snaps the boom into place. Height adjustment is just as easy, with incredibly quick tightening of the easy-grip, triangular tightening sleeve.

TMS 4322 B

Touring series Tripod Mic Stand with Telescope Boom

Tours and events often operate under hard conditions and time pressures. Microphone stands are thrown around and not generally treated gently. That's why Gravity Touring series telescopic boom microphone stands are built to be extremely sturdy. Made with especially strong steel tubing with three folding feet. The base and boom mount are made of indestructible die-cast zinc. The boom has an adjustment range of 51 to 88 cm. The screw-on counterweight has a specially designed locking nut for microphone clips. The solid metal knobs are unlosable, to ensure that the stands withstand the rigours of the road for longer. The microphone stands are also faster to set up and take down. Turning the locking screw just 3/4 quickly snaps the boom into place. Height adjustment is just as easy and extremely quick via the easy-grip, triangular tightening sleeve.

MICROPHONE STANDS

MS 23 XLR B

Microphone Stand with XLR Connector and Gooseneck

Enabling ultra flexible microphone orientation, this premium quality stand features a 36.5 cm gooseneck on a thick walled 114.5 cm tube and a heavy duty round base made of cast iron. The gooseneck integrates a 3-pin female XLR connector for directly attaching a microphone while the tube sports a lateral XLR mic cable connector at the bottom end. This permits quick, clean setup without mic clips and running the cable up the stand. To extend the stand's height and increase stability, additional XLR goosenecks (item no. GMAGOOSEMXLR) and a weight disc (item no. GMS2WP) are available as accessories.

Product number	GMS23XLRB

ACCESSORIES MICROPHONE STANDS

MS STB 01

Stereo Bar for 2 Microphones

The Gravity Stereo Bar 01 allows you to mount two microphones on a single microphone stand with 3/8" thread. Made of solid aluminum, it is the perfect choice for basic stereo micing and features two 3/8" sliding microphone mounts which permit 60 - 170 mm spacing centre to centre.

Product number	GMSSTB01
Product type	Stands and Tripod Accessories
Material	Aluminum
Color	Black
Horizontal adjustment range	60 - 170 mm
Threaded connector	3/8" "
Material thickness	4 mm
Length	190 mm
Weight	0.053 kg
Black ring pack included	Yes

MS STB 01 PRO

Stereo Array Microphone Bar

Enabling accurate and easily repeatable two-microphone stereo recording arrays, the Gravity Stereo Bar is a real precision instrument. It allows for exact spacing of the sliding microphone mounts from 6 to 29 cm, +/- 90° microphone orientation on the horizontal axis and +/- 90° tilt of the entire bar. Easy-to-read spacing and angle markings facilitate fast and precise positioning, taking notes of your settings and recreating them without effort. Set screws with ergonomic soft-touch knobs securely lock the adjustable parts in the desired position.

The Gravity Stereo Mic Bar is suitable for common stereo recording techniques including ORTF, DIN, XY and AB patterns and mounts on any mic stand. It is engineered from strong yet lightweight aluminum and easily able to support two large diaphragm microphones.

Product number	GMSSTB01PRO
Product type	Stands and Tripod Accessories
Material	Aluminum
Color	Black
Horizontal adjustment range	60 - 290 mm

SPEAKER STANDS

Gravity speaker stands use thick walled precision tubing, steel height adjustment collars and redesigned leg housings for maximum strength and durability. Air cushion and hand crank versions greatly facilitate lifting and lowering heavy loads, and our low-profile round base model provides an elegant, small footprint alternative to conventional tripods. In addition, the Gravity range includes stands for your studio monitors, subwoofer poles and a selection of stand adapters.

SPEAKER STANDS

FEATURES

Sturdy, virtually indestructible steel collar with safety pin

Comfortable ergonomic knobs

Specially designed aluminum die-cast leg collar for superior strength

Crank operation for easy speaker raising and lowering

Vari-Weight® - Low-profile 9 kg cast iron base and a 5 kg weight plate which installs without tools

Tight, secure fit

TSP 5212 LB

Touring series Steel Speaker Stand with Auto Lockpin

STEEL TOURING LOUDSPEAKER STAND WITH AUTOMATIC LOCKPIN®

The hard conditions and extreme time pressures of touring are for strong workers and robust materials only - such as the Gravity Touring series speaker stand. Extremely sturdy, with three double-braced legs and a die-cast aluminum mounting bracket. Especially strong steel tubing for a 50 kg load capacity. Set-up and take-down are extremely quick and safe thanks to the automatic, snap-in LockPin®. The 35 mm extension pole is locked into place and the pin can only be unlocked with the release lever. The loudspeaker stand can be adjusted to a height of up to 194 cm. The locking screws, with solid, unlosable metal knobs, are an invaluable advantage when touring.

SA VARI-TILT®

Variable Speaker Tilt Adapter

Product number	GSAVARITILT
Product type	Stands and tripod accessories
Color	Black
Material	Steel
Surface	Powder coated
Suitable for tube diameter	35 mm
Tilt angle	0 - 15 °
Length	190 mm
Max. load	30 kg
Interchangeable rings	1 x 25 mm
Black ring pack included	Yes
Weight	0.6 kg

SF 36 Z 38 M

Reducer Flange from 36 mm to 3/8" Male

Product number	GSF36Z38M
Product type	Stands and tripod accessories
Color	Black
Material	Steel
Surface	Powder coated
Suitable for tube diameter	35 mm
Threaded connector	3/8" x 12 mm
Type of adjustment	Screw clamp
Length	100 mm
Interchangeable rings	1 x 25 mm
Black ring pack included	Yes
Weight	0.49 kg

SA FIXTILT 5

5° Speaker Tilt Adapter

Product number	GSAFIXTILT5
Product type	Stands and tripod accessories
Color	Black
Material	Steel
Surface	Powder coated
Suitable for tube diameter	35 mm
Tilt angle	5 °
Length	190 mm
Max. load	30 kg
Interchangeable rings	1 x 25 mm
Black ring pack included	Yes
Weight	0.5 kg

SF 36 M 6 M

Reducer Flange from 36 mm to M6 Male

Product number	GSF36M6M
Product type	Stands and tripod accessories
Color	Black
Material	Steel
Surface	Powder coated
Suitable for tube diameter	35 mm
Threaded connector	M6 x 12 mm
Type of adjustment	Screw clamp
Length	100 mm

KEYBOARD STANDS

Gravity keyboard stands and add-on tiers are designed for safe support and easy portability. Including multi-adjustable T-style and single or double X-braced models, they are made of heavy duty steel with reinforced joints, durable powder coating and grippy pads. Gravity keyboard stands provide easy setup and height adjustment for sitting or standing playing positions.

KEYBOARD STANDS

FEATURES

Black rings and pads included

Vari-Foot®
Compensates for uneven ground

Ergonomic quick release clamp

Reinforced tubes for superior strength and longevity

KS TS 01 B

Keyboard Stand Table

This keyboard stand with table-like construction offers superior stability making it particularly suitable for heavy keyboards. It is height-adjustable in small incremental steps, making the stand suitable for both seated and standing applications. The legs can be fitted in two basic configurations – either perpendicular to the vertical structure or angled outwards slightly – the latter configuration offers additional stability and more leg room. The top rests can be adjusted to the width of the keyboard and can also be angled in small incremental steps over a range of 360 degrees. All in all, this solid steel construction comprises all features possible in such a design without compromise.

For transport, both the legs and the top rest can be folded inwards, resulting in a very compact transport height.

The stand includes one Vari-Foot® leveling foot to compensate for ground irregularities.

Product number	GKSTS01B

GUITAR STANDS

GS 01 NHB

Foldable Guitar Stand with Neckhug

The GS 01 NHB is a rugged yet elegant folding guitar stand for acoustic, electric and bass guitars. It is easily height adjustable up to 108 cm and features Gravity's ingenious "Neck-Hug" technology.

The swivel mechanism automatically locks the guitar neck in the yoke to prevent slipping or falling out. The locking wings open again when the instrument is lifted from the stand. The stand's protective padding prevents dents and dings and does not mar the guitar's finish.

MULTIMEDIA EQUIPMENT

LED PL 2B

Table-Top Headphones Stand

This ultra slim and elegant L-shape desk lamp with silicone coated gooseneck provides uniform illumination exactly where you need it. It features a strip of 18 LEDs that are switchable between warm or cool white (approx. 3,000/6,000 K), and the touch sensitive power button doubles as a stepless dimmer switch. The gooseneck section is easily flexible yet stays put where you bend it. The Gravity L-shape desk lamp integrates a convenience USB type A port for charging smart phones and tablets and comes with a 12V power adapter. It also makes a great piano lamp, workbench light or bedside reading lamp.

Product number	GLEDPL2B
Product type	Stands and Tripod Accessories
Number of LEDs	18
Color of LEDs	White
Gooseneck length	160 mm
Total length	730 mm
USB Port	Type A, DC 5V 1,5 A
Switches	Color selector, Touch sensitive button

Weight	0.75 kg

BAGS AND TRANSPORT SYSTEMS

Gravity bags offer you an easy and safe transport of your stands. The thick padding and the water repellent material make sure your equipment is absolutely safe.

CARRY BAGS

CART M 01 B

Multifunctional Trolley (Medium)

Sound technicians, DJs and stagehands: Take the weight off your load with a multi-functional cart. The Gravity Cart chassis is made of steel to ensure rigidity. Two fixed and two rotating low-rolling resistance, anti-slip rubber tyres provide extra manoeuvrability. The Gravity Cart is your trusty companion before and after every show. And the best thing is: The light-weight, compact-folded, multi-functional cart lifts easily from the tour bus while also performing effortlessly when fully loaded with equipment. With its (up to 0.98 m) extendable chassis and 150 kg load capacity, your equipment is quickly and safely transported to and from the stage. And thanks to its optimal ergonomic design: without straining your back.
