PRODUCT FEATURES

MULTIPLE INPUTS & OUTPUTS

DJ changeovers are a breeze for rekordbox dj users thanks to the two USB ports for PC/Mac. There are four external input terminals for DJ players and analog turntables, plus two Mic inputs. You can also use the DDJ-1000 as a stand-alone DJ mixer without connecting a PC/Mac.

1 CLUB-STYLE LAYOUT
All the controls are arranged in the same layout as those on our club-standard NXS2 set-up and the jog wheels are inherited directly from the CDJ-2000NXS2. This creates a familiar, professional experience.

2 COLOUR ON JOG DISPLAY
A high-definition LCD screen in the centre of each jog wheel displays customisable information such as playback time, BPM, waveform, playback position and Hot Cue and Loop points.

3 MULTICOLOURED PERFORMANCE PADS
Use the 16 multicoloured Performance Pads (8 per deck) to trigger various features including Hot Cues, Pad FX and Keyboard Mode, which enables you to play a Hot Cue in different semitones.

4 IMPROVED MAGVEL FADER
Latency is significantly reduced on the new MAGVEL FADER crossfader. Durable for over 10 million movements, it enables intricate performances with a smooth feel.

5 PORTABLE BODY
The DDJ-1000 offers the ideal on-the-road solution if you want to play at events and party venues other than clubs thanks to its lightweight, compact body.

6 14 BEAT FX
The DDJ-1000 is loaded with all ten Beat FX from our DJM mixer series plus four new FX for enhancing your sets. You'll also find the four popular Sound Color FX from the DJM mixers.

7 KEY SHIFT & KEY SYNC BUTTONS
Take direct control of rekordbox dj key-related features.

INCLUDES REKORDBOX DJ LICENCE

Use the professional rekordbox dj Plus Pack software to perform using tracks stored on your computer.

We've made every effort to show the product accurately, but colours and typography might be different in reality. Features and specifications are correct at the time of printing but are subject to change. Please speak to your Pioneer DJ dealer to make sure the product meets your needs.
