

This stylish 2-way loudspeaker reproduces a Hi-Fi sound quality and has a wide dispersion. This is due to the specially designed and treated woofer. The uncompromised component selection will guarantee a perfect sound in all weather conditions. The ABS housing is painted in gray and looks like a "rock". This makes the ROCK20 inconspicuous in your garden, recreation park, swimming pool,.... The complete loudspeaker (the wire included) is weatherproof. The ROCK20 is provided with a high quality 20 Watt 100 Volt transformer with several power tapplings.

TECHNICAL SPECIFICATIONS
