2022 UPDATE

Show tec &infinity DMT DUTCH MEDIA TOOLS DAP ARTECTA SHOW GEAR
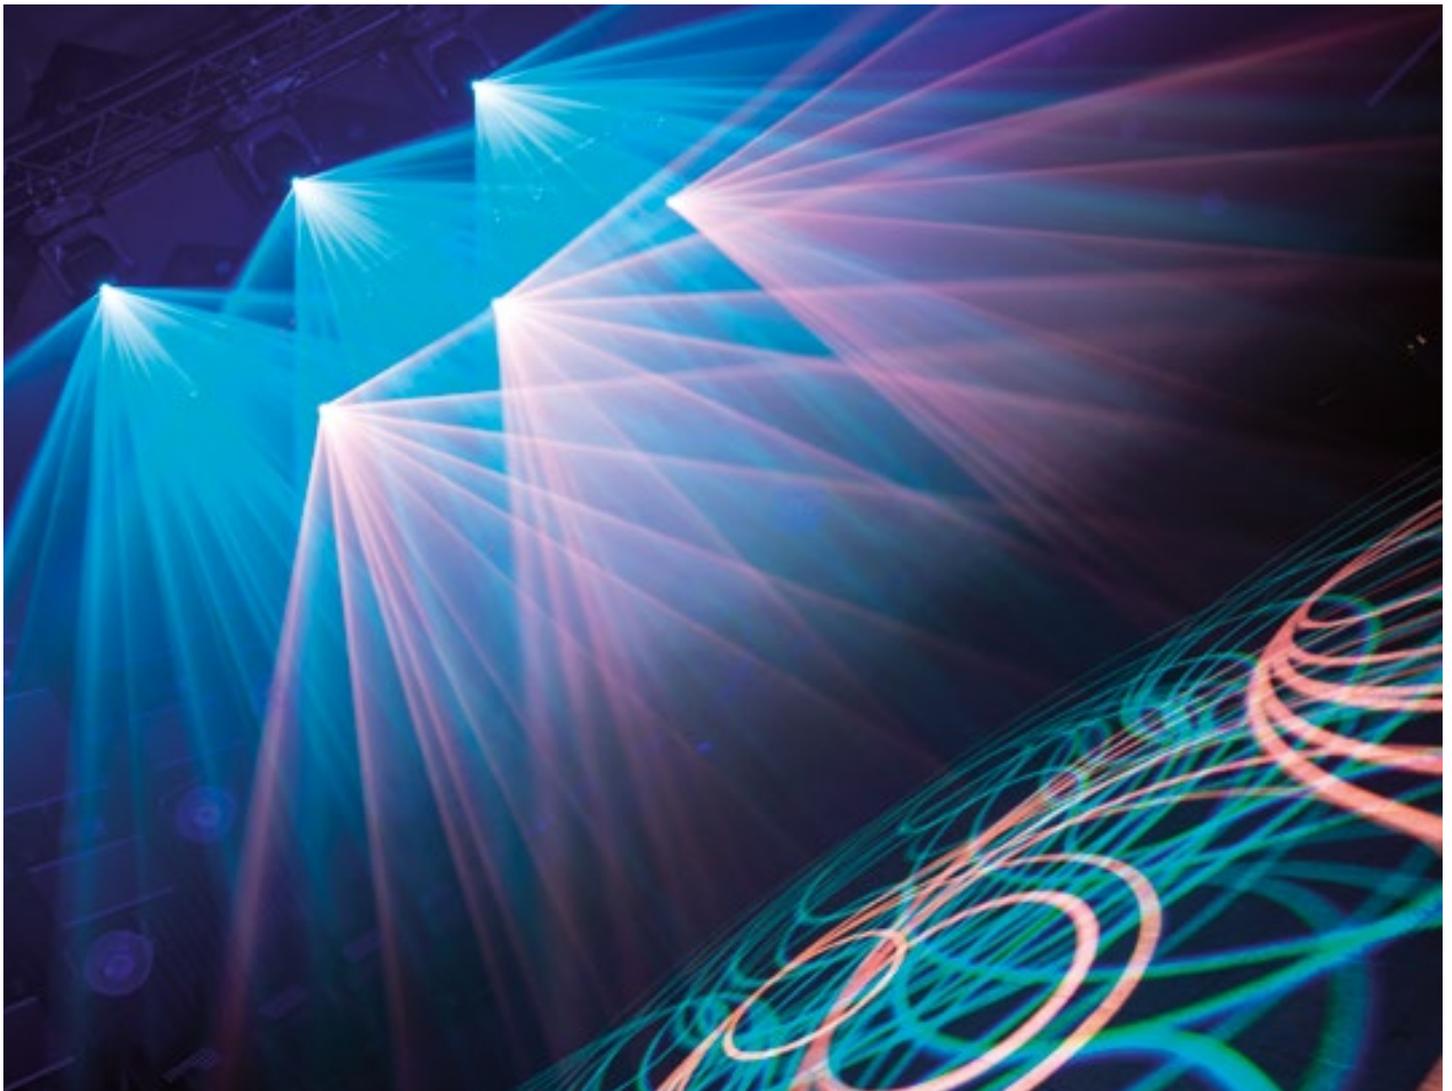

Welcome to our product catalogue

There was a time, most recently, where the sound of silence seemed to be all around us and in which the lights were extinguished. It surprised, sedated and restricted us in an unprecedented way. Two things couldn't be stopped, our spirit and the power of innovation.

In addition to the 2021 'Brands that inspire' catalogue, we now have even more to show you! We kept bringing in new and improved fixed and mobile solutions for all walks of life. Solutions for either your businesses, public places and events. It is now time for you to flourish, whether you are a rental company, reseller, installer, event organiser or any other business owner. Be prepared, because the moment is now. The tidal wave of joy is here.

Check out this 2022 update to find out our latest innovations. Together with the brands that inspire catalogue, you will now have a complete overview of our portfolio.

Showtec

Showtec accommodates over a thousand products, ranging from static, moving, and special effect lighting to theatre spots and DMX controllers. Rental companies, DJs, and professionals in the entertainment industry turn to Showtec for reliable products with a high quality-price ratio. Wherever you are in the entertainment industry, you will find a solution that fits your experience, your budget, and the visual experience you want to create. Whether you are at a festival, in a club, a theatre, or even in a video production, you can rely on Showtec in any situation.

Our latest Showtec showpieces are our Lampy DMX lighting controllers. They offer strong features and a very user-friendly and intuitive interface that makes shows easy, fast, and fun to design and control.

We have also introduced several new Showtec fixtures, for instance the Phantom 250 Spot and Phantom Hybrid 12R. They are a terrific addition to our Phantom series and will most definitely fit well in your inventory.

infinity

Infinity offers meticulously designed and crafted products, ranging from moving and static theatre and studio lighting to complete smart control solutions. Professionals in the entertainment industry use Infinity for excellent and exclusive lighting solutions. Infinity offers innovative tools to translate creativity and passion in situations where only no-compromise lighting devices are accepted.

An excellent example is the Chimp product range, which keeps evolving, with new opportunities and possibilities each year. We have improved and expanded these professional DMX consoles and products with new software and additional hardware. You can now prepare your shows from anywhere with the lightweight and USB-powered Side-Kick and the Chimp OnPC software, add the Banana Wing to your Chimp setup to expand the number of fader and button controls, and add the Peanut Box for four additional universes on your Chimp product and timecode control to your shows. For enabling two additional DMX universes, Art-Net, and sACN on your Chimp OnPC software, a USB dongle is now available.

DMT – DUTCH MEDIA TOOLS

DAP accommodates over a thousand products, ranging from microphones and speakers to cables and audio mixers.

Performing artists, sound professionals, and installers choose DAP to have affordable and solid audio solutions at their disposal. DAP provides versatile remote and fixed solutions for both large and small events, public addressing, and background music.

Especially for medium to large shows and events, Odin Audio Systems by DAP is a truly versatile line-array audio system that perfectly replicates the punchy sound of a kick, the finest details of a guitar, and true vocal expressions. Next to powerful and detailed sound, Odin offers loads of character, excellent features, and scalability at an unprecedented price level.

ARTECTA

Artecta focusses on providing complete solutions for controllable mood and track lighting, architectural lights, down lights, office lights, and LED strips. AV installers use Artecta for providing high-quality and modern architectural solutions and accessories for design lighting in projects of any size, for example retail environments and the hospitality industry.

With the arrival of the Display Series, track lighting becomes more versatile, with 3-phase profiles and fresnels for professional indoor display applications. We have also expanded our LED strip assortment significantly with the Havana LED strips with dedicated profiles and more.

SHOW GEAR

Showgear carries all essentials from DAP, Showtec, and DMT that are not dedicated to one specific product. Accumulating these under one brand, results in better segmentation and brand targeting. In addition, we have added new products like network cabinets and wall/ceiling mounts to the Showgear portfolio.

From rigging equipment and power distribution to flight cases and backdrops, Showgear delivers all the support products you might need and more. So, for all those who work tirelessly behind the scenes of productions and shows, you will find all your essential supplies and accessories under the Showgear brand.

Wentex SET Frame solutions

"The Wentex SET Frame is an inventive, lightweight, aluminium textile frame system for quickly and easily creating exhibition or projection walls. You can use the modular system to build structures up to 6 metres high (~20 ft.) and as wide as you like. Frame modules come in different shapes and sizes. A built-in stacking system and clamps allow frames to link together securely and seamlessly.

Wentex Base Plates create a strong and stable base. You can use both front and rear effectively for projection. Creating an intermediate compartment for seamless LED screen installations is also very well possible. The Wentex SET Frame is an ideal framing solution for tendon/textile cloths (silicone-edge graphics) at conferences, exhibitions, trade fairs, seminars, and TV studios."
