

## Ortofon | Pro S

Entry-level cartridge for all-purpose use

### Pro S Characteristics

#### PRO S

New DJ? This entry-level cartridge is perfect for newcomers on the DJ scene who want to start off with decent, but not too expensive equipment. The Pro S has a spherical diamond stylus which minimizes scratching and a solid cantilever which can survive hectic activity at the turntable. The sound quality is absolutely not to worry about. The Pro S is a consistent performer and a fine all-rounder!

Spherical Stylus  
Scratch

Frequency Response  
20-18,000 Hz + 3 / - 2 dB

Tracking Force  
4,0 g

Replacement Stylus  
Pro S

Output  
5 mV

Available Versions  
OM + Concorde

### DJ

DJs all over the world make very high demands of their professional equipment, among which the cartridges play their decisive part by realising the scratching, back-cueing and live artistic performance that is a big part of the show.

Reliability and robustness is vital, when night after night the cartridges will have to meet these demands in environments with extreme sound pressure and vibration. The Ortofon Pro silver coloured cartridges were the first to remain the unrivalled Ortofon sound quality with the
