DTY-LADIESFRM

DTY-LADIESFLS

It all started as an idea based on feedback from you guys – the end users. The idea quickly went from a prototype to one of our most well received stock lines, the Ladies 'Range For Her'. First trialled at Plasa 2012, the gloves were an immediate hit with women of all ages and they soon became a sell-out item. The gloves are available from size XXS upwards to ensure there is a comfortable fit for all. In celebration of this line we have decided to donate 10% of sales in this range to Breast Cancer Awareness.

Ultra durable synthetic leather palm, providing excellent long term resistance against abrasion for general use.

Neoprene padded knuckle protection

The styles available:

Full finger, Framer and Fingerless

Machine washable up to 30 degrees C!

"Best gloves EVER in XS too for my tiny teeny hands!"

DIRTY RIGGER
GLOVES & ACCESSORIES

Armordillo

THE ULTIMATE IN CUT RESISTANCE

Our most advanced glove to date! The Armordillo glove ensures 100% confidence on the job when cut & puncture resistance are essential. Strategically placed, specially selected materials are combined to produce a glove which is both dexterous and protective even when sharp objects are common place.

Kevlar lining proves optimal slash resistance while goat skin leather is used on the palm to ensure effective grip and puncture protection.

Armortex is used in key risk areas to provide an exterior shield against sharp edges and objects. Armordillo -The ultimate in cut resistance.

- FULLY KEVLAR LINED

- 4mm Silicone shock absorbing gel
- Genuine leather palm for maximum grip
- Full tabs for easy removal of gloves

4mm Silicone gel padding

Vibration Source

RESISTANCE

Goatskin leather

Synthetic Leather

A total of 1500 individuals received medical care in the year 2010/2011 due to these vibration related injuries alone. Taking this very seriously, Dirty Rigger has been approached to produce a solution.

“Regular and frequent exposure to hand-arm vibration can lead to two forms of permanent ill health known as: hand-arm vibration syndrome (HAVS) and carpal tunnel syndrome (CTS). Which carry symptoms such as; tingling/ numbness in the fingers, loss of strength in the hands and fingers going white, becoming red and very painful on recovery.”

“With continued exposure to vibration they may become permanent and cause pain, distress and sleep disturbance. This can happen after only a few months of exposure.”

available now!

GLOWMAN

THE BACKSTAGE LIGHT GLOVE

The glove features an integrated thumb mounted LED device which provides a powerful light source when working in dark or low lit conditions. This eliminates the need to carry a torch, therefore giving you 2 hands to work safely and effectively.

If this feature isn't enough, the gloves are also touch screen compatible! This means no more taking your glove off to answer that all important phone call. It also means you can have full functionality on all major touch screen phones and tablets. The material on the index finger and thumb has been tailored to fit better, providing excellent dexterity and improving overall quality of device interaction.
