

# Pro18s

## 18" PASSIVE SUBWOOFER

-  Plywood Enclosure
-  Polyurea Coating
-  Easy Install
-  8Ω Low Impedance Input

The Pro18s is a 2000W passive 18" Reflex Subwoofer engineered specifically for installation and portable solutions with a modern and trendy design to deliver high output and dynamics, extreme linearity and fidelity at a very competitive price, making them an affordable solution for the professional market. This subwoofer can be an ideal solution to use with Pro12 or Pro15 for hotels, restaurants, bars, lounges, conference rooms, Djs and musicians among many others. The cabinets are constructed using premium-quality 15mm plywood with polyurethane coating. Front and speakers' protection is assured by an acoustically transparent a powdercoated steel grill with acoustical foam. The Pro18s professional passive subwoofer was engineered to deliver powerful bass, providing enhanced headroom and a more defined audio experience with clear sound.

**Product Type**

Passive Reflex Subwoofer

**Frequency Response (-6dB)**

36Hz - 160Hz

**Program Power**

1000W

**Peak Power**

2000W

**Nominal Impedance**

8Ω

**Frequency / Type of X-Over**

80Hz to 120Hz - 24dB/oct LR (recommended)

**Recommended High-Pass Filter**

34Hz, 18dB/oct Butterworth

**Maximum SPL (calculated)**

132dB/135dB (Half-Space)

**Subwoofer Driver**

1 x 18" (460mm), 4" (100mm) VC

**Input Connectors**

2 x NL4

**Recommended Amplifier**

A504 DSP | A3800

**Fittings**

1 x M20 and/or 35mm pole mount socket

**Handles**

2 on each Side

**Grille**

Black Perforated Steel

**Construction**

Heavily Braced Multi-laminate Birch Plywood

**Finish**

Poliurea Coating

**Dimensions (WxHxD)**

560 x 545 x 780mm (22 x 21.5 x 30.7 in)

**Net Weight**

46kg

**Shipping Weight**

53kg

**Accessories**

Transportation Dolly | Individual Protective Cover
