#### **Volg ons op**

**BEKAFUN** ontstond in 1990 als een beperkte verhuurfirma. Sinds 1998 specialiseren we ons in de verkoop van pro audio, licht en AV aan zowel particuliere DJ's, verhuurfirma's, verenigingen en bedrijven.

### **PRIJS**

Wij proberen goed aan te kopen en zijn niet bang buiten België aan te kopen. Wij bieden een laagste prijs garantie, vindt u hetzelfde product ergens anders goedkoper, dan passen wij onze prijs aan!

**Als professionele klant krijgt u van ons een PRO-account met gepersonaliseerde prijzen en exclusieve promoties.**

### **SERVICE**

Ons sterke punt is onze **2550m<sup>2</sup> stock**. Wij zijn niet zomaar een webshop, opererend vanuit een garage, wij hebben het effectief staan.

Onze **eigen hersteldienst** met kennis van zaken staat steeds paraat voor onderhoud en reparaties van alle producten binnen onze sector.

Op het einde van de rit willen we U de beste prijs geven, op alles, service inbegrepen.

Bekijk ons complete gamma op  
**WWW.BEKAFUN.COM**

## Edito

Multibrackets is een Zweeds familiebedrijf opgericht in 2000. Ze hebben een breed gamma aan kwalitatieve AV-accessoires zoals display- en projectorbeugels, trolley's, projectieschermen, design kabelgoten en meer.

In deze catalogus staan de belangrijkste producten in hun gamma voor onze sector. Prijzen zijn meteen zichtbaar op onze website. Het correcte artikel vind u eenvoudig via het artikelnummer. Typ in het zoekveld bovenaan onze website "mbr-" gevolgd door het artikelnummer uit deze catalogus. Bvb : mbr-7350073732319 voor de M Public Floorstand Basic 150.

# DIGITAL SIGNAGE PRO SERIES

Pro Series is a Digital Signage product series, that can be configured to Ceiling Mounts, Floor to Ceiling Mounts, Menu Boards or Wallmounts. With its modular construction installers have vast possibilities to change, update and reconfigure its design if ideas change. Over time the Pro Series installation can be combined into a wide range of new configurations.

## Wide range of brackets

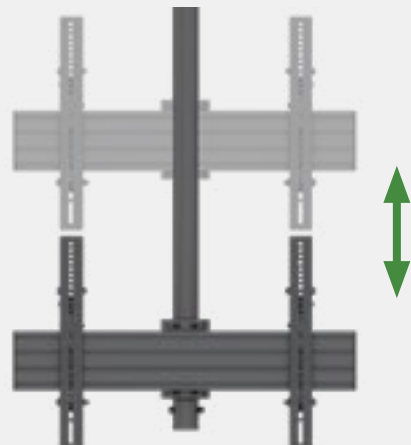

## Precision Leveling

Each mounting bracket allows for micro height adjustments to be made to ensure your screens are levelled and perfectly aligned.

## Extendable Height

The extendable poles allows you to position the center of the screen mounting plate no any height limitation. For tighter spaces, just with single pole to achieve a distance of 80cm.

## Easy tilt

Tilt the mounting brackets 5°, 10° or 15° forward to improve line-of-sight while maintaining alignment between your screens. To compensate for potential lean, the brackets can also be angled up to 6° backward.

## Modular design

Available in a wide range of models, Pro Series ceiling mounts support single to 18 screens weighing up to 30kg each. Their modular design allows for additional extrusions to be added to accommodate screens with wider VESA patterns, or to connect multiple units together.

## Easy installation

To reduce strain, the Pro Series uses lightweight ceiling plates that are installed independent of the rest of the mounting system. Simply slide each extension pole into place and secure it to complete the installation. The ceiling plates also provide up to 90° of swing to account for sloped ceilings and support beams, or to secure the mount to a wall.

## Cable management

The extension pole's hollow core provides an unobstructed path to route your cables, while an opening in the mounting plate allows them to continue through the ceiling for a truly professional setup.

# Multibrackets Ceiling Mounted Solutions

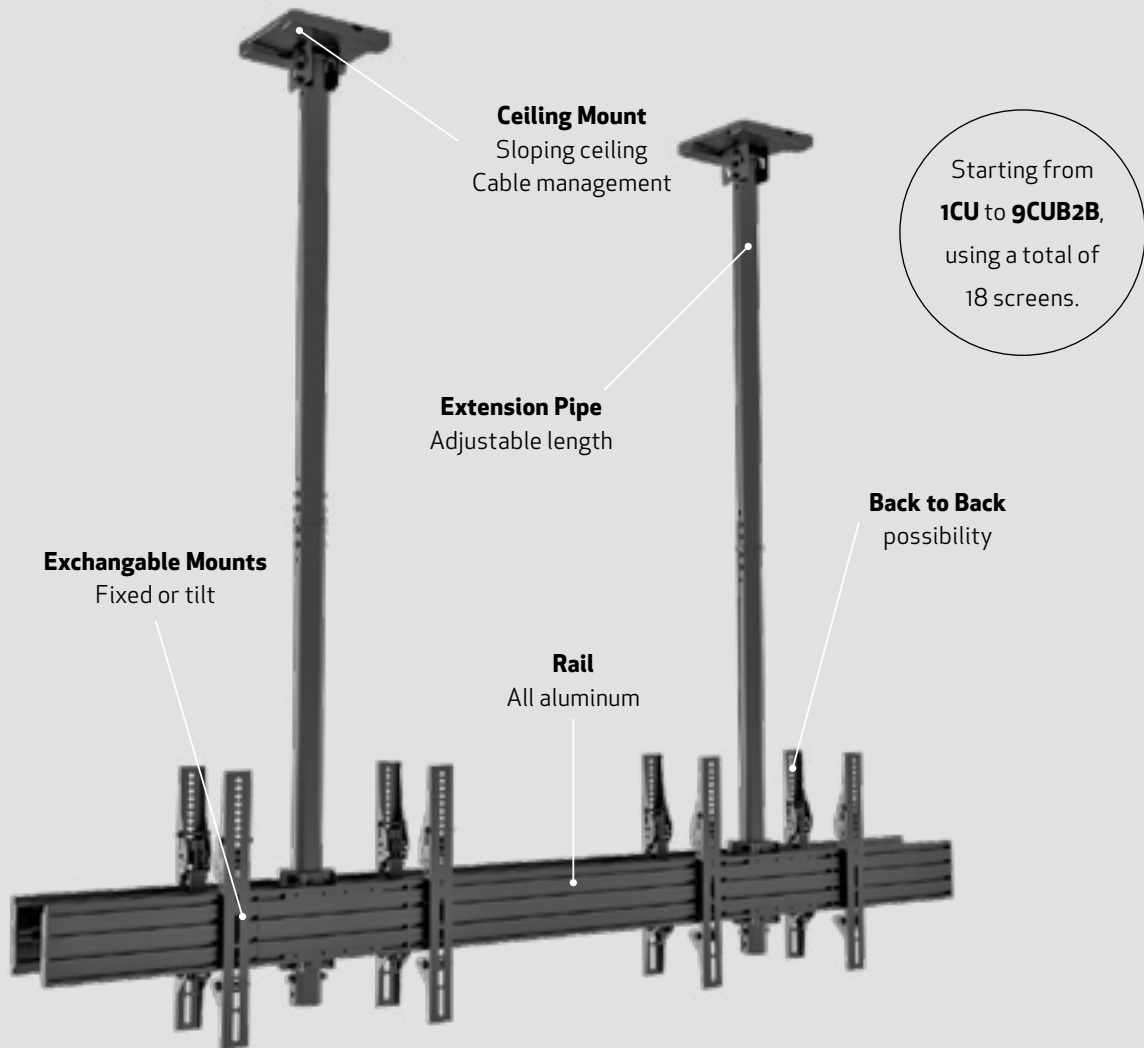

Great for installers and digital signage installations. Our ceiling mounted solutions make it possible to construct single, dual or video walls in prominent locations where walls aren't available. Comes in a variety of arrangements.

**PRO SERIES**

# Ceiling Mounts

Our Ceilingmounts was designed to deliver a simple solution for any digital signage installations involving multiple commercial displays 32"-100". Perfect for many commercial installations the space saving design ensures the very best installer experience.

Starting from **1CU to 9CUB2B**, using a total of 18 screens.

# Multibrackets Wall Mounted Solutions

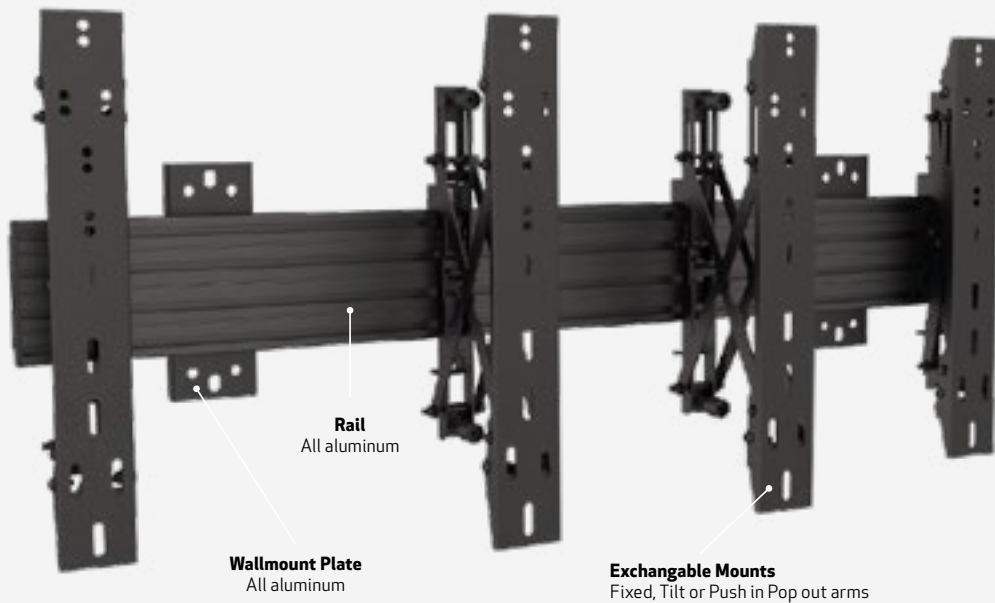

Our Pro Series Wallmounts can be used as menu boards or signage wallmounts. They offer a perfect display positioning and flexible adjustments. The single horizontal extrusion with optional push in pop out and depth adjustment aligns the displays very quick even on irregular mounting surfaces and allows easy access behind the displays for servicing.

## PRO SERIES

# Pro Wallmount Videowalls

For screen in a row the Pro Series now can offer you a simple way to get perfect display positioning and a choice of bracket and adjustment solutions that works after a set standard. Ensuring the very best installer experience a single aluminum extrusion rail is used with either fixed, tilt or push in pop out brackets that aligns the screens quick and efficiently.

### A wide variety of arms:

- Push in pop-out:** 600/400
- Tilt:** 200/400 /600/900
- Fixed:** 200/400 /600/900
- Micro adjustable:** 200/400

# From Wall & Wall to Wall Series

Keep crowds informed with high visibility

In the need of solutions to mount displays in a perpendicular position to a wall ? The M Pro Series From Wall and Wall to Wall models are our innovative interior designed Pro Series solutions that offers high visibility in open areas such as hallways, concourses, aisles and office spaces. The bracket mounts vertically so that the display is presented perpendicular to walls or between two walls. The clean and simple Scandinavian design has a durable construction and is very easy to install, a complete set of hardware is included. The M Pro Series From Wall and Wall to Wall series is a single or double sided solution. This digital signage installation makes it easy to keep moving crowds informed and this type of fixture is an ideal way to display high visibility wayfinding or directional information in high traffic areas.

**SAMSUNG**

These days many installers get the request to promote content with exceptional clarity in any storefront window. Multibrackets series of customized Floor or Ceiling Mounts for Samsung OMND display series is the ideal digital signage mounting solution for store windows. The Samsung OMN-D Series features a double-sided screen, with each side adjusted for the environments in which it is utilized. Samsung's OMN-D Series can be easily mounted on a stand or hung from a ceiling, giving retailers more options for positioning. The smart design creates a clean look and offers flexibility in how valuable floor space is designed and utilized.

The MFloormount Pro OM55N-D is the floormount designed for Samsung two sided screen OM55N-D. This dedicated mount allows businesses to create a platform for eye-catching content deliveries on a minimalistic mounting solution. By many installers considered the ideal display and mount solution for store window applications. A minimum of visible cables and screws from the outside. With a multitude of installer friendly features including concealed cable management for a professional appearance. This is an incredibly versatile solution that can be adapted to suit a wide range of both retail and commercial applications.

# M PUBLIC FLOORSTAND DUAL PILLAR 180 HD

## with AV Cabinet

Our M Public Dual Pillar 180 HD with AV Cabinet is a powerful and well-designed product suitable for multiple environments including education, corporate and digital signage.

With its lockable storage rack (the storage cabinet comes fully pre-assembled) it can store your AV components or videoconference tools. With its spacious cabinet it is perfect for video conferencing or any other corporate situation. Its massive capacity of up to 100" displays or 90kg weight capacity it is most suitable for larger displays. With its lockable castors makes the floorstand stay still where you want it. An intelligent and tool-less designed height adjustment built into the columns makes height adjustment possible. Cables & peripherals are neatly hidden within the backside of the columns making the installation look clean and easy to move around when needed.

### HIGHLIGHTS:

- Heavy Duty Design with 90kg weight capacity
- Lockable AV Storage
- Ready for videoconference
- Camera shelf included
- Holds VESA up to 1000x600
- Toolless height adjustment
- Cable management built in
- Partially pre-assembled for quick assembly
- Full hardware kit included

# Officeline Pro

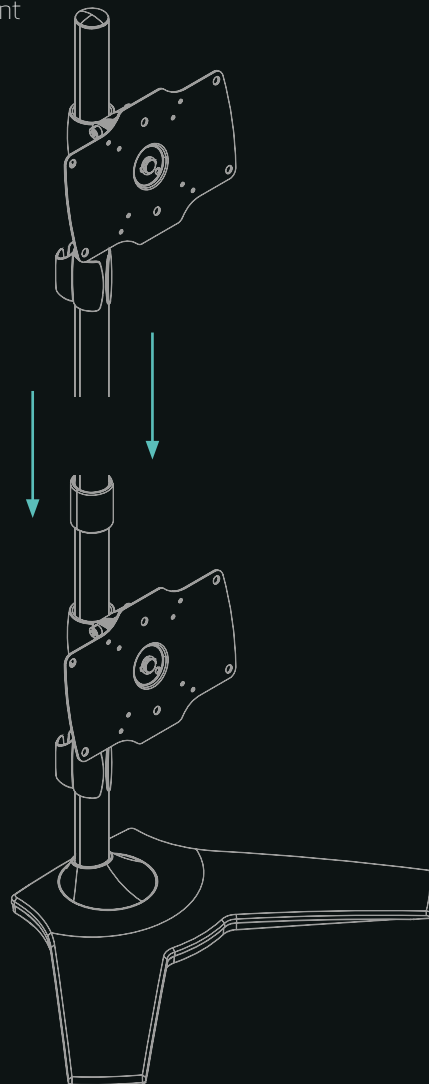

## Total flexibility - Build your desktop monitorwall after your needs

### HIGHLIGHTS:

- A high level designed productline for office use.
- Made for the semi professional user.
- Creates maximum ergonomic comfort for displays.
- Simplified installation and simple after adjustment possibilities.
- Plexi based cable management.

Officeline Pro 's key advantage is its modularity. This line up meets the needs of virtually every requirement in the modern computer workstation environment, offering exceptional adjustment; display, tilt, swivel and rotation and can accommodate a wide range of monitor weights and sizes.

Create the ideal multi display arrangement and position your monitors individually to increase productivity, reduce eye, neck and shoulder strain. At the same time, you will be saving space and creating the ultimate viewing position for each monitor with micro adjustment possibilities for each display. The products are slender and low profile yet the weighted base provides enhanced stability and minimize clutter with the intuitive cable management system.

# Officeline

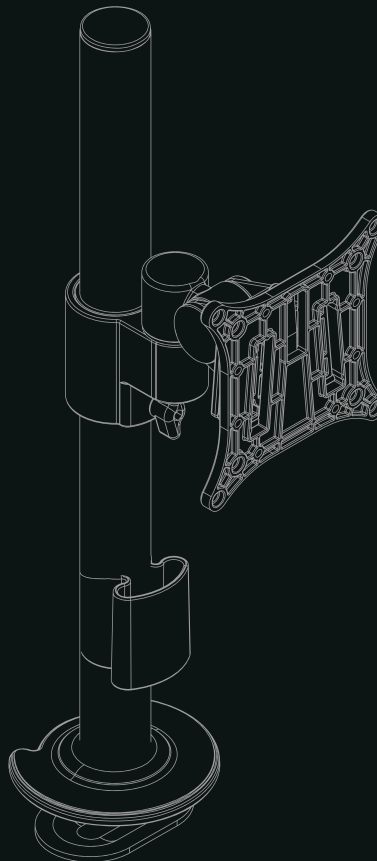

**Frees up space** - Allowing positioning of your display for greater productivity

## HIGHLIGHTS:

- A high level designed productline for office use.
- Made for the semi professional user.
- Creates maximum ergonomic comfort for displays.
- Simplified installation and simple after adjustment possibilities.
- Plexi based cable management.
- Optional through hole installation with Grommet Base.

From a simple single monitor desk stand to a more system like thinking capable of handling multiple monitors. Multibrackets Officeline offers a wide variety of stands to meet virtually any demand. Low-profile, single monitor stands allowing the user to freely position the monitor anywhere along the edge of the desk allowing a line of sight across the table.

At the other end of the spectrum, the multi monitor Officeline Dual and Quad mounting system offering great scalability: Start with two monitors and gradually expand to 3, 4, 6, or 8 monitors as your needs change, while independently adjusting each monitor to the precise position and angle you need.

# Deskline

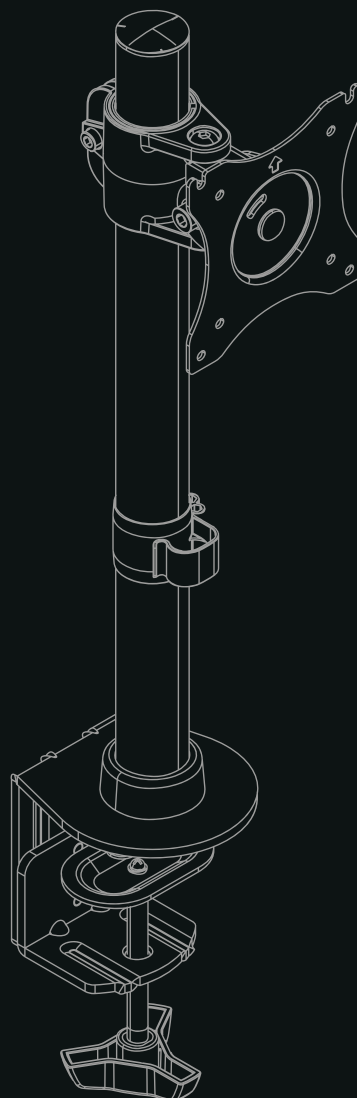

Increase your productivity & free up desk space  
Optimize your office or gaming setup

## HIGHLIGHTS:

- Gracefully adjust your monitors height and position.
- Rotate monitor to landscape or portrait mode.
- High grade materials with anti scratch surfaces.
- Built in cable management system.

This series of free standing or clamp based mount lets you install one, two, three or four displays up to 27", on a single base that you can place in virtually any workspace. The black finish complements your office decor. Set up a single or multi monitor workstation with this VESA monitor stand (75x75, 100x100 mm) to multitask faster and boost your productivity.

Compare and edit files on two screens with ease. Rotate your monitors 360 degrees for portrait or landscape viewing. Free up desk space with the low profile base and maximize the surface area. Its crossbar design keeps your monitors perfectly aligned and makes it easy to mount and finetune adjust two flat panel displays side by side. The monitor stand features a flat, low profile back so you can position your displays against an office wall or cubicle wall to free up space.

# Improve your posture

Office Ergonomics - How to battle a poor posture. With the continuing rise in popularity of computers and mobile devices, an increase in postural strain is being placed on our bodies. Poor posture while using desktops, notebooks and multiple screens on the desk place the

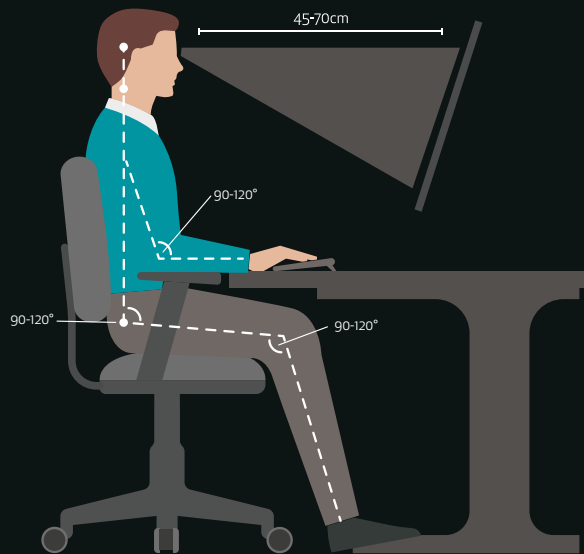

upper body in a position of increased neck flexion with rounded shoulder posturing. This can lead to a variety of musculoskeletal issues and postural deviations. Given the length of time spent in these postures on a daily basis, places office workers at an even higher risk of developing disorders.

For these reasons, it is important to ensure proper office ergonomics are in place. Maybe it's time for your business to discover a new level of refinement with our Monitor Stands and Gas lift solutions.

## 5 tips for an ideal sitting position

- Shoulders relaxed
- Straight back
- Circulation in legs
- Healthy hip and knee joints
- Feet flat on the floor

### MONITOR

Adjust distance and height top of the monitor at eye level and slightly tilted.

### ARMS

Relax shoulders and forearms parallel to the floor.

### CHAIR

Should have a backrest and armrests, adjust height.

### LEGS

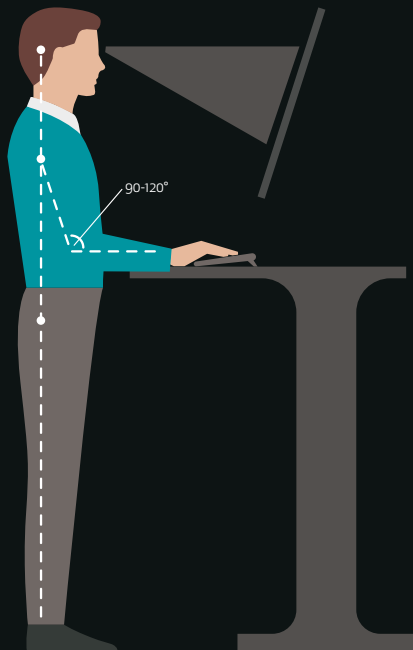

Thighs parallel to the floor.

### FEET

Parallel to the floor, use a footrest if necessary.

## 5 tips for an ideal standing position

- Shoulders relaxed
- Straight back
- Pelvis in neutral alignment
- Circulation in legs
- Hip, knee and ankle joints aligned with gravity line

### MONITOR

Tilt your monitor back 10 - 20°.

### ARMS

Maintain keyboard height even with elbows.

### BODY

Change posture every 30 minutes.

### LEGS

Use an anti fatigue mat while standing.

### FEET

A foot rest is essential to shift your weight from one leg to another.

## ■ VESA GAS LIFT ARMS

# M VESA Gas Lift Arm Desk or Wall

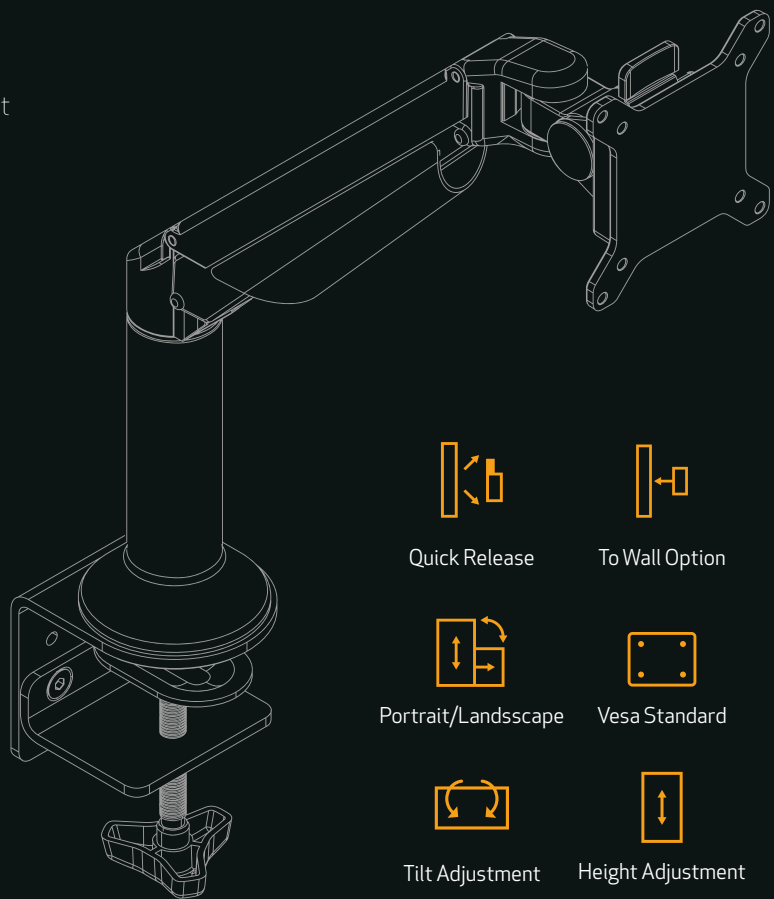

Use it on a desk or fix it to a wall

### HIGHLIGHTS:

- Ultimate fit. Improve your monitors movement and overall ergonomics.
- Mounts on your desk or onto a wall.
- Works with most mid size displays up to 32".
- Saves space and holds your cables hidden.

The M VESA Gas Lift Arm Desk or Wall made out of a durable aluminum construction and uses a gas driven suspension technique. This makes the screen "float" and it can then be moved with near zero effort. Sleek and streamlined, the M VESA Gas Lift Arm frees up space and allows positioning of your display for greater productivity.

The unique counterbalance gas technology provides smooth adjustment in any direction. Easily move the screen from landscape to portrait position or move the screen close to the desk, high up, matching almost any wanted working position imaginable. In addition, this version of our Gas Arm can be mounted directly to the wall.

Quick Release

Built in Gas Lift Cylinder

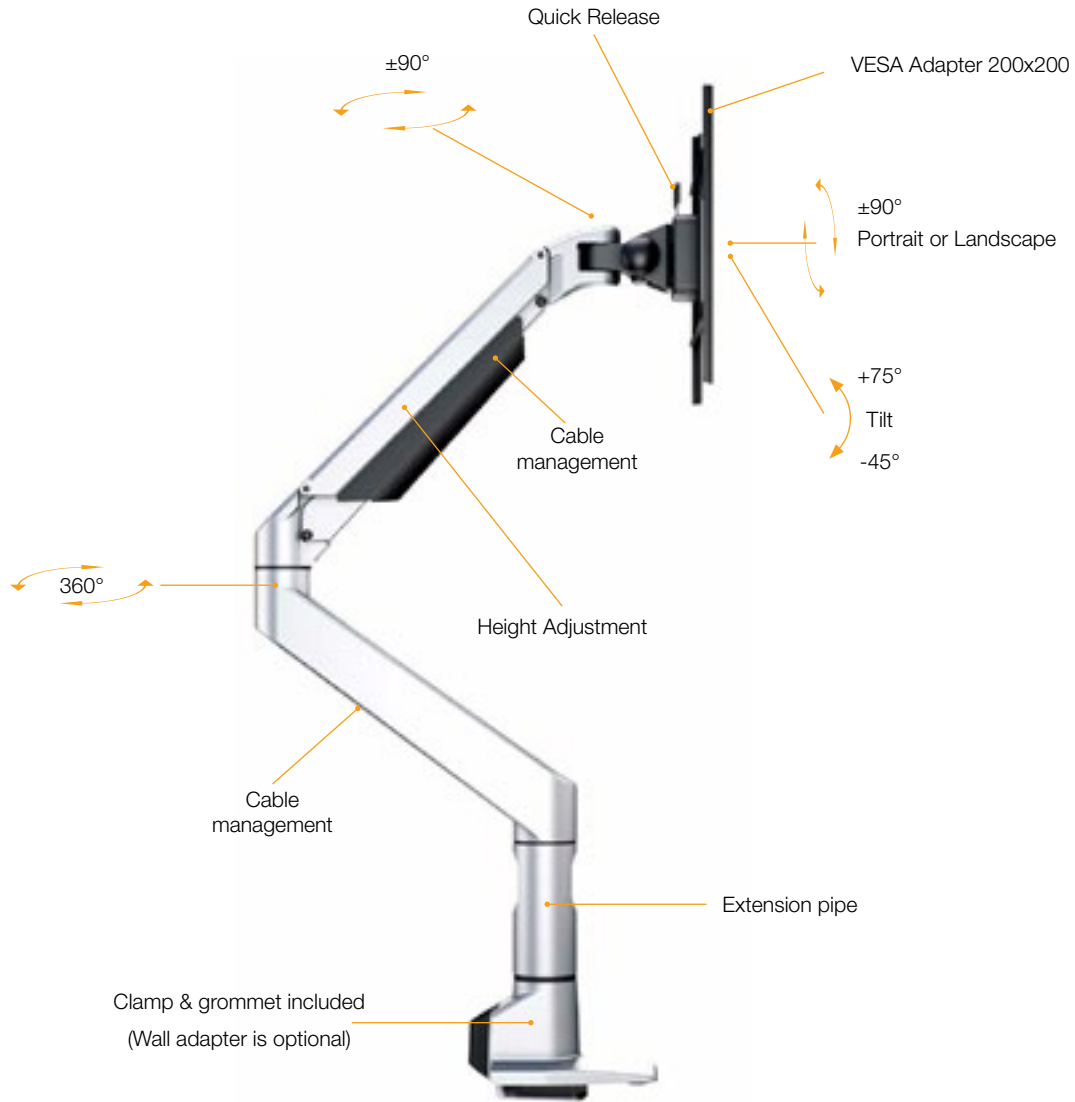

This gas arm is built to last longer than our competitors by passing our 10 000-cycle motion test. This Heavy Duty monitor arm series is cleverly designed and can be used with larger or heavier monitors on the market. All cables route through a smart cable management system solving the problem of messy cords over your desk

space. Finally, a Full Motion Universal Desk Mount goes beyond simple movements by offering tool-less movement and counter balance weight adjustment. The original MVESA Gas Lift Arm XL is made out of aerospace aluminium, it's construction utilizes a gas driven suspension system holding up to a massive 18kg. Always finding your best

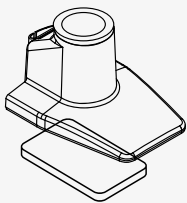

view, saving desk space and letting you discover your most productive self, the MVESA Gas Lift Monitor Arm XL series always deliver. Place your screen where you need it for each project, and then reclaim a space full of opportunities by folding the arm and pushing it aside during a much-needed screen.

# Dual Monitor

## Increase effectivity

Reclaim desk space with dual monitors

### HIGHLIGHTS:

- **Double your display area**  
Perfectly aligns two LCD displays side by side, improve your daily use and increase efficiency.
- **Space saving**  
Clear your desk and enlarge your working area.
- **Better motion**  
This arm easily adjusts monitors up to 32" in size.
- **Scandinavian design**  
We designed this with both mechanics and aesthetics in mind.
- **Highest build quality**  
Our gas arms are built to last longer than our competitors by passing our 10000 cycle motion test.

Dual Monitor

Did you know using dual monitors can increase productivity by up to 30%? In tests it has been found that considerable time can be saved if an employee uses more screens with documents open simultaneously, rather than opening and closing documents on a single screen. This low profile dual screen monitor arm series is aimed

to keep employees efficient as well as returning precious space. So, let's start reclaiming that desk space and get everyone more efficient while doing it. Create a fully adjustable dual monitor configuration that lifts both LCD screens simultaneously. Providing a compact range of motion and optimal ergonomic alignment.

Perfect for any user  
who multitask or use  
multiple documents  
open at one given time

# Dual Monitor Side By Side

Optimize space, productivity and comfort with dual monitors side by side

## HIGHLIGHTS:

- **Super flexible**  
Designed for side by side, low, high screen angle views.
- **Space saving**  
Clears your desk, creates extra workspace.
- **Better motion**  
This arm positions two monitors up, down, landscape or portrait.
- **Scandinavian design**  
We designed this with both mechanics and aesthetics in mind.
- **Highest build quality**  
Our gas arms are built to last longer than our competitors by passing our 10000 cycle motion test.

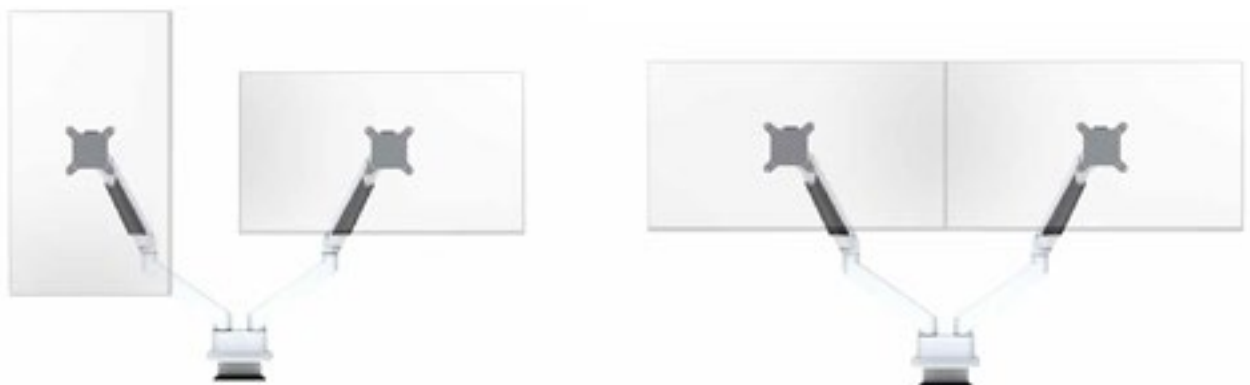

Increasingly, computer users are adding second monitors to their desk setups to allow for easier task switching and comparison between multiple files. Actually, using two displays side by side, according to independent tests, can increase productivity by up to 30%. Our range of side by side dual monitor

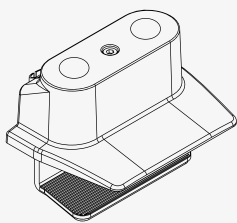

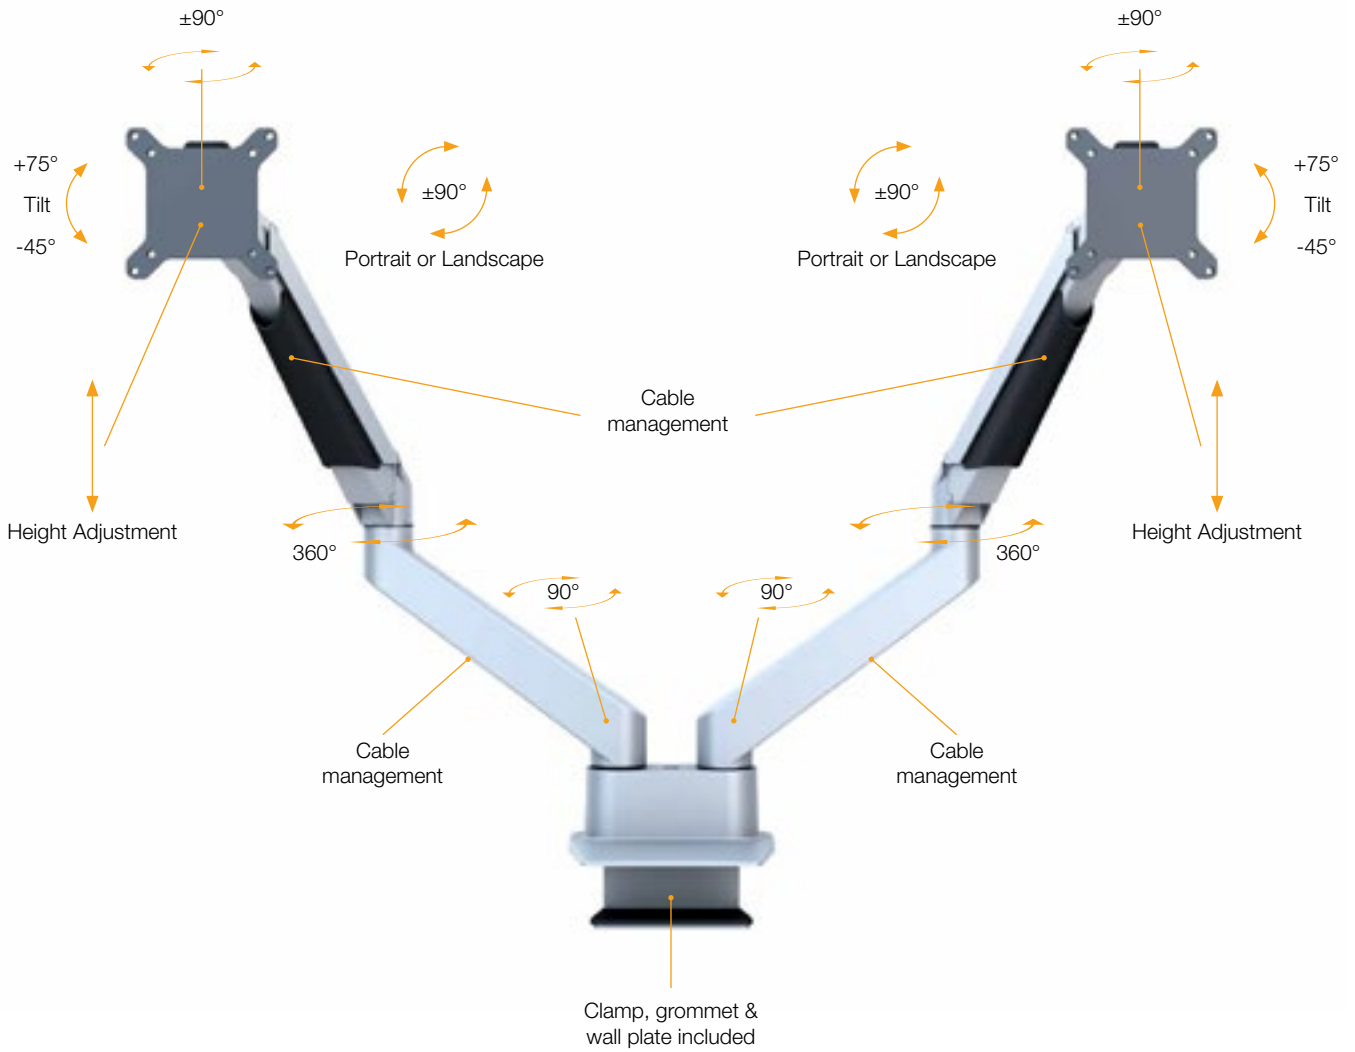

display, effortlessly adjusts to suit your needs. Featuring extendable and retractable arms which tilt to alter reading angles, not to mention rotating to either portrait or landscape modes. Having each monitor on individual gas driven arm allows one screen in landscape and the other in portrait as well

as having the displays at a different distance depending how your eyes are responding. Our Side by side dual screen monitor arm series is aimed to keep coworkers efficient as well as clear desk space.

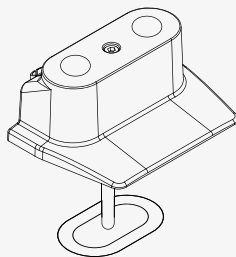

Perfectly suited for users who require unparalleled range of motion or use multiple applications at once during their daily work

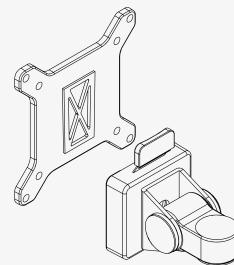

Desk clamp (included)

Grommet (included)

Quick release (included)

# Multi Monitor Solutions

## Dual & Quad

Multiple monitors can streamline your work and increase your work productivity

### HIGHLIGHTS:

- **Super flexible**  
Two or four monitors independently adjustable to fit your daily needs.
- **Space saving**  
Clears your desk and creates extra workspace while maximizing comfort.
- **Heavy duty**  
Single Pole with heavy duty clamp.
- **Well designed**  
3rd generation Gas arm designed with both mechanics and aesthetics in mind.
- **Highest build quality**  
Our gas arms are built to last longer than our competitors by passing our 10000 cycle motion test.

We believe the M VESA Gas Lift Arm Dual/Quad series to be one of the world's best multi monitor arm systems. The durable system made out of mainly aluminum can safely secure two or up to four monitors at once and with its accessories it can accommodate various configurations. Utilizing the Multibrackets new generation of Quick release monitor arms it provides

cutting edge features for any IT department to reduce downtime if monitor service is needed. M VESA Gas Lift Arm Dual/Quad is perfect for the modern workplace and encourages flexibility and collaboration at the workstation. After installation one can easily set each monitor at an optimal distance and height, this increases usable desk space and allows the user to work in

a healthy posture throughout the day even with as much as 4 different monitors at the desk. The built in innovative cable management system will guarantee that your desk remains uncluttered. With the aim to be simple to install, easy to use, this series provides an overall reduced cost of ownership.

Maximize  
desk space  
and improve  
productivity

# Deskstands/Workstations

## Elevate productivity

Smart Workstation solutions promotes long term healthy computing

### HIGHLIGHTS:

- **Super flexible**  
Individually fine tune your monitor for how you work best.
- **Space saving**  
Clears your desk and creates extra workspace while maximizing comfort.
- **Stability & durability**  
Best in class stability & tested over 10000 times.
- **Effortless and Virtually Silent**  
No cranking, no clicking, your display will move effortlessly.
- **Build quality**  
Our Workstations are built to last longer than our competitors.

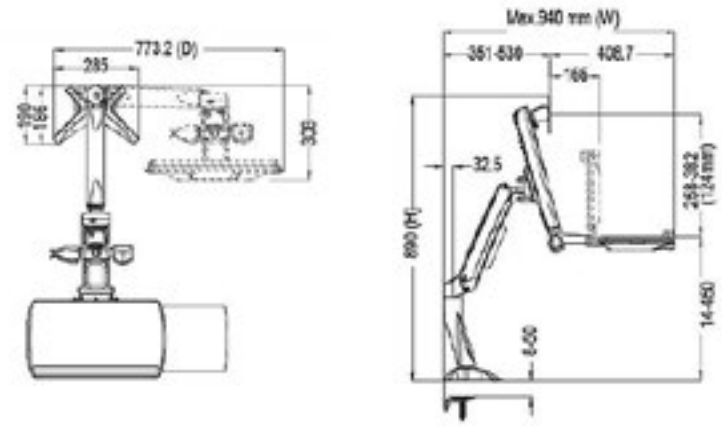

Our Workstations are built to last longer than our competitors. Whether you are sitting or standing our wall or desk mounted counterbalanced Workstation Arms let you position your monitor in the most ideal ergonomic position for you. For both Workstation Arms and Easy Stand there are no fixed heights, no cranking, no clicking unlike many other products out there. By elevating your monitor or monitors, you will free up the space below for other important items. That means you will have more

space for multitasking. Another benefit is the added viewing capabilities. Have you ever had to share a presentation at your desk or perhaps with a patient (medical applications)? Having a Workstation monitor arm can make that kind of viewing experience a whole lot more enjoyable.

Easy Stand Workstations is our range of counterbalanced height adjustable desktop Workstations. Available as a single and dual monitor solution this will reduce the strain on

your shoulders, neck, and eyes when properly positioned. A great solution for flexible and comfortable working year around. Easily placed onto any desktop it adds a worksurface that stays with you as you sit or stand. With a click you simultaneously lift your keyboard and LCD screens to proper height, with another click you can lower it back to the desktop.

# Cable Socks

Versatile, with flexible properties Cable Socks gives abrasion resistance for delicate cables

## HIGHLIGHTS:

- Expands easily to ensure complete coverage and protection.
- Offers general protection from abrasion, chemicals and temperature for optimal protection.
- Available in various sizes and colors.
- Designed to adjust and expand to irregular shapes.
- Keeps its flexibility under a wide range of temperatures and over time.
- Constructed from tightly woven polyester material.
- Provides easy installation on already existing applications simply unwrap the cable sock and apply directly to your cable or product.
- Highly versatile with flexible properties, excellent for office/commercial/ industrial uses.

What's special about Cable Socks, and why would they be needed? Leaving delicate cables exposed to the outside elements puts them at risk of costly abrasive damage and UV degradation. Adding Multibrackets cable sock solutions to cables in high traffic or high friction areas will help extend cable

life and save you money down the road. Unlike traditional braided sleeving or wire loom, these cable socks install easily with no special tools or endless sliding. Our unique colour options also allow colour coding and easy identification of cable infrastructure. A good choice for AV cables, computer cables

(inside and out), server halls, data-centres optical cables (5mm version), hospitals, hotel rooms and anywhere else one might need high quality cable socks. Our Cable Socks are also fire retardant.

Protecting and grouping of wires after installation  
*To be used - everywhere!*

# M VESA DESKMOUNT HD DUAL VERTICAL WIDE 32"-50" STACKING DESKTOP MONITORS INCREASES EFFICIENCY & SAVES SPACE

While desk widths at home often are scarce, ceilings are (so far) staying put. So while you may not have the room to put two or three displays side by side at home, there's almost always ample room to go up, into what is otherwise unused space.

With the new large size widescreen curved monitors hitting the market Multibrackets mounting systems can handle stacked displays as large as twin 50 inch. curved monitors, creating a vast, immersive working canvas.

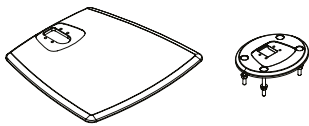

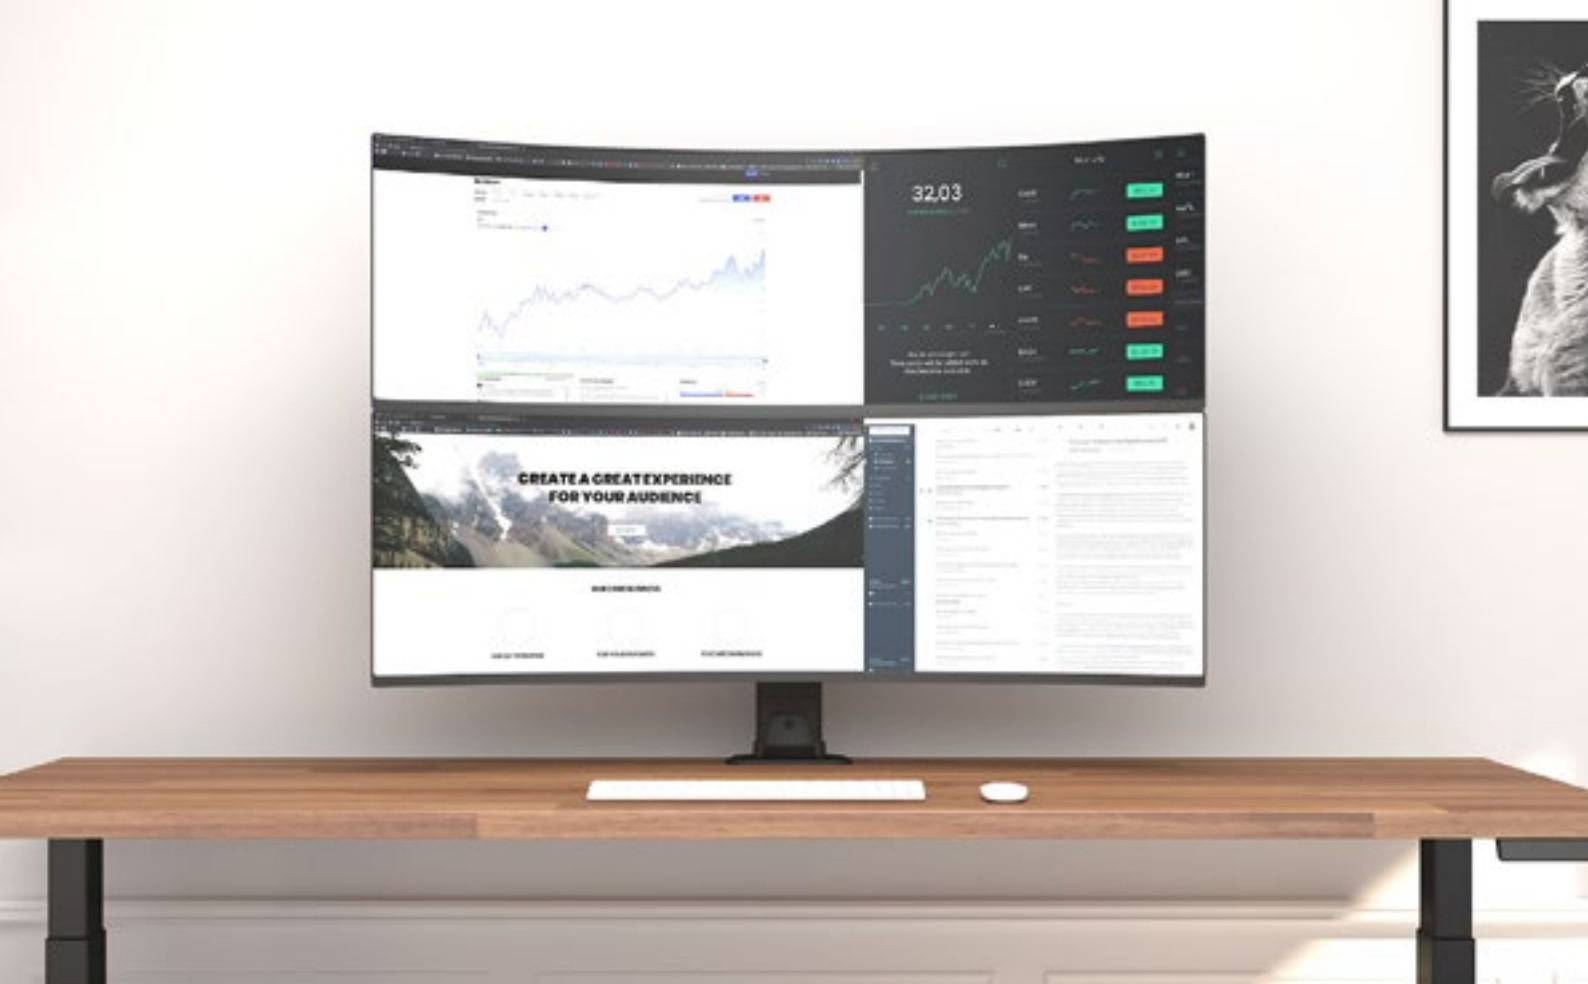

This is a height adjustable tabletop mount for large size displays with an ultra slim design. With the increasing demand for large size displays and video conference equipment and more focus on collaborative working, we introduced the M Deskmount XL Black.

Easily Mount 37"-55" Monitors or TVs to a Multimedia Table for Use in Conferences, Displays or Presentations. With support of interactive displays and other large size displays our mounts can attach quickly to most any surface and support for video conferences or training, group discussions or presentations in offices, especially in huddle rooms. Rear back hides hardware for a clean look.

# CABLE SOCKS ELEGANT RESISTANCE FOR DELICATE CABLES

Versatile, with flexible properties Cable Socks gives abrasion resistance for delicate cables.

Leaving delicate cables exposed to the outside elements puts them at risk of costly abrasive damage and UV degradation. Adding Multibrackets cable sock solutions to cables in high traffic or high friction areas will help extend cable life and save you money down the road. Unlike traditional braided sleeving or wire loom, these cable socks install easily with no special tools or endless sliding. Our unique colour options also allow colour coding and easy identification of cable infrastructure. A good choice for AV cables, computer cables (inside and out), server halls, datacentres optical cables (5mm version), hospitals, hotel rooms and anywhere else one might need high quality cable socks. Our Cable Socks are also fire retardant.

## HIGHLIGHTS

- Expands easily to ensure complete coverage and protection.
- Offers general protection from abrasion, chemicals and temperature for optimal protection.
- Available in various sizes and colors.
- Designed to adjust and expand to irregular shapes.
- Keeps its flexibility under a wide range of temperatures and over time.

## 25m rolls!

# MANUAL PROJECTION SCREENS DELUXE

## ELEGANT DESIGN & SUPERIOR MATERIAL CHOICES

Le Screen Manual Self-Lock Projection Screen Deluxe are elegant projection screens designed with a aluminum cassette, high-end for the living room, home theatre, conference rooms or for educational use in schools. With a sleek Nordic design this projection screen fits any environment it is installed in.

The Le Screen Projection Screens are easy to install and even easier to use. Just sit back and enjoy the show! Non compromised material choices is used when making a Le Screen Manual Screen giving you market leading technical specifications and optimized picture quality.

### Slow retention

A slow retention function is built into the manual screens. This makes the screen retract slowly and controlled retract into the cassette. This prolong the lifetime (normally doubles the life expectancy) of the projection screen and makes the manual screen usable in more public environments where multiple users handle the screen every day.

### Superior screen material

The quality of screen material is the most important aspect of any projection screen. Most screens on the market will use a very basic compressed cloth type material resulting in a creased surface and poor contrast performance. The Le Screen Projection Screen Deluxe series use a high quality multi ply material with a high contrast and low gain of 1.0. The material is tear resistant, fireproof, anti wrinkle

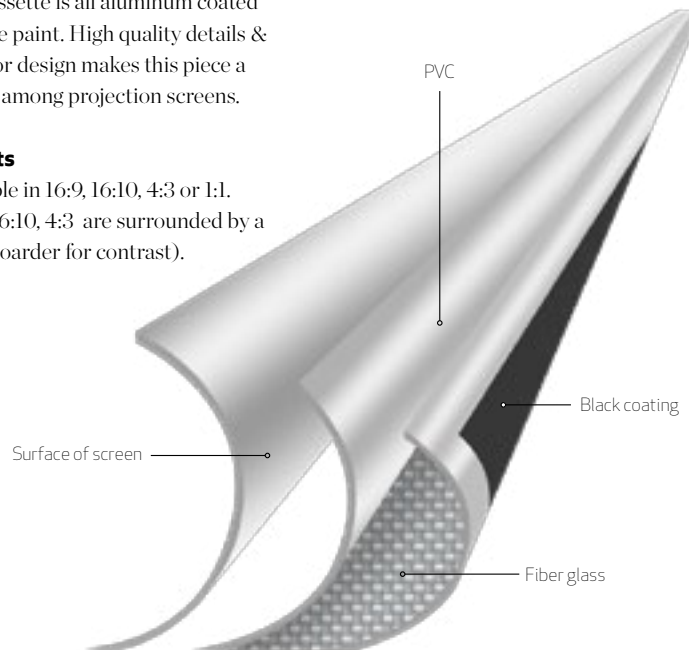

safe and is designed to hang flat. The centre layer is a glass fibre net producing a flex rate of less than 1% compared with the industry average of 33%. The front layer optimizes contrast and reflectivity while a black PVC backing prevents light leakage and helps retain a uniformly flat projection surface.

### Elegant design

Le Screen Manual Self-Lock Projection Screens Deluxe are an elegant series of manual screens. The cassette is all aluminum coated in white paint. High quality details & superior design makes this piece a beauty among projection screens.

### Formats

Available in 16:9, 16:10, 4:3 or 1:1. (16:9, 16:10, 4:3 are surrounded by a black boarder for contrast).

# MOTORIZED PROJECTION SCREENS DELUXE

## ELEGANT DESIGN & SUPERIOR MATERIAL CHOICES

Our motorized projection screens are designed to increase functionality and performance for today's presentation environments. Also by being motorized and not handled by hand it will last much longer than its manual counterparts. Crafted to strict Le Screen standards, these innovative screens are now available in widths from 77" to a massive 334" (or 8,5m diagonal).

Le Screen Motorized Screens also feature seamless height adjustments for a picture perfect reproduction in the most challenging environments. Le Screen standard fabric is a Gain 1.0 and our screen cloth is using a high levelled three layer technology. Le Screen can also custom produce screens with different fabrics built to a project's specification. Supporting most popular aspect ratios: 16:9, 16:10, 4:3, and 1:1 we are almost certain we have a Motorized Projection Screen that fits your needs.

### Superior screen material

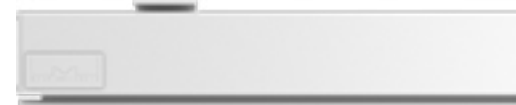

The quality of screen material is the most important aspect of any projection screen. Most screens on the market will use a very basic compressed cloth type material resulting in a creased surface and poor contrast performance. The Le Screen Motorized Projection Screen Deluxe series use a high quality multi layered ply material with a high contrast and low gain of 1.0. The material is tear resistant, fireproof, anti wrinkle safe and is designed to hang flat. The centre layer is a glass fibre net producing a flex rate of less than 1% compared with the industry average of 33%. The front layer optimizes contrast and reflectivity while a black PVC backing prevents light leakage and helps retain a uniformly flat projection surface.

SCREENS**

# FRAMED PROJECTION SCREENS

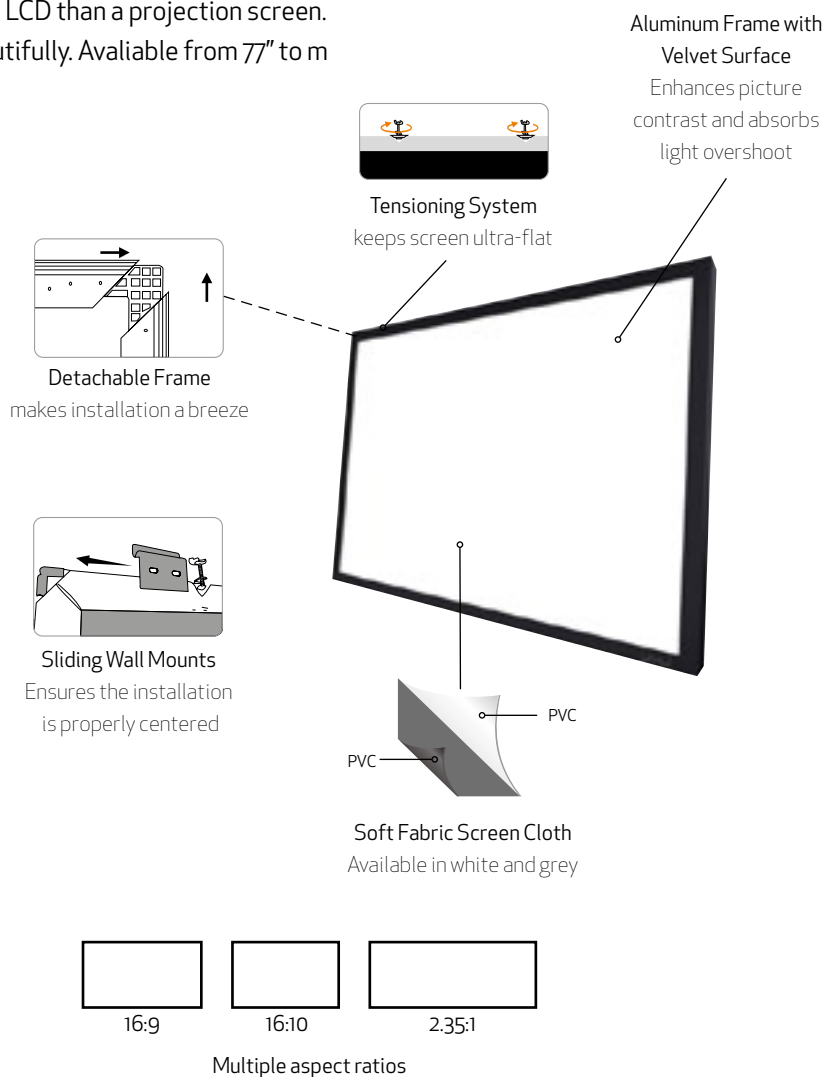

## ELEGANT DESIGN & SUPERIOR MATERIAL CHOICES

Our ultra flat framed screens reach a perfectly smooth surface. With a frame that is just 30 mm thick, it looks rather like an LCD than a projection screen. It's simple and linear shape harmonizes beautifully. Available from 77" to massive 226".

Our Framed series is a best seller in EU perfect for Boardrooms, Corporate Information Suites, Reception areas and other prestige business locations. Our line of framed screens are also perfect for smaller viewing theatres, visitor centers, museums and other select presentation venues. The screens are based on a high quality screen cloth. Producing a 1.0 gain with a superior extra wide viewing angle.

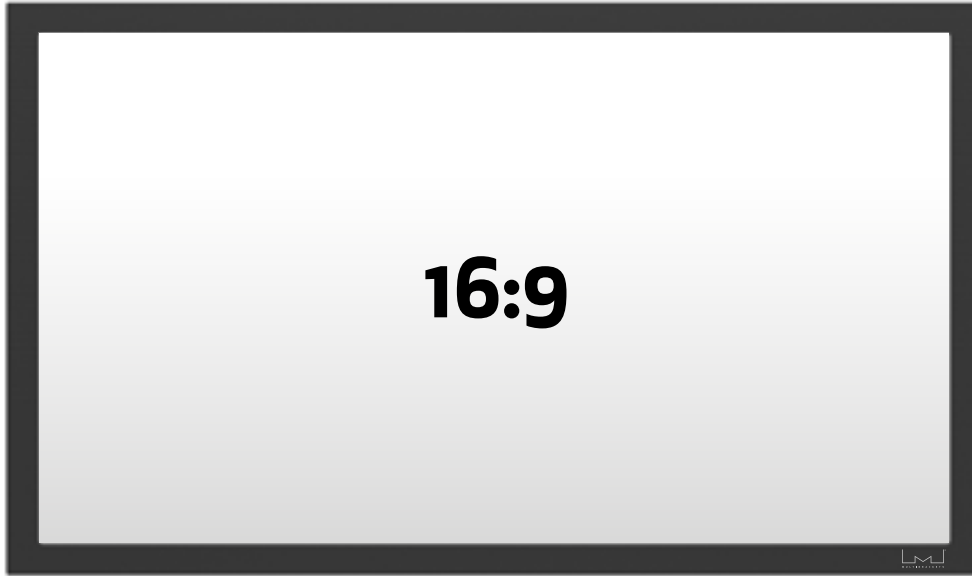

Our Framed screens use a simply ingenious tensioning system, you're sure to get a wrinklefree and super straight image every time. Le Screen framed screen value means big audiences get big screens without having to compromise on the experience. The result is a viewing environment that delivers on movie makers creative vision. A result so immersive it must be experienced.

Our series Fixed projection screens are tailored to fit the bill for high-end fixed screens and viewers wanting high quality and good economy. Selected framed screens has the option to use Le Screen Grey Plus Cloth (Gain 0.9) or our Acoustically transparent screen technology.

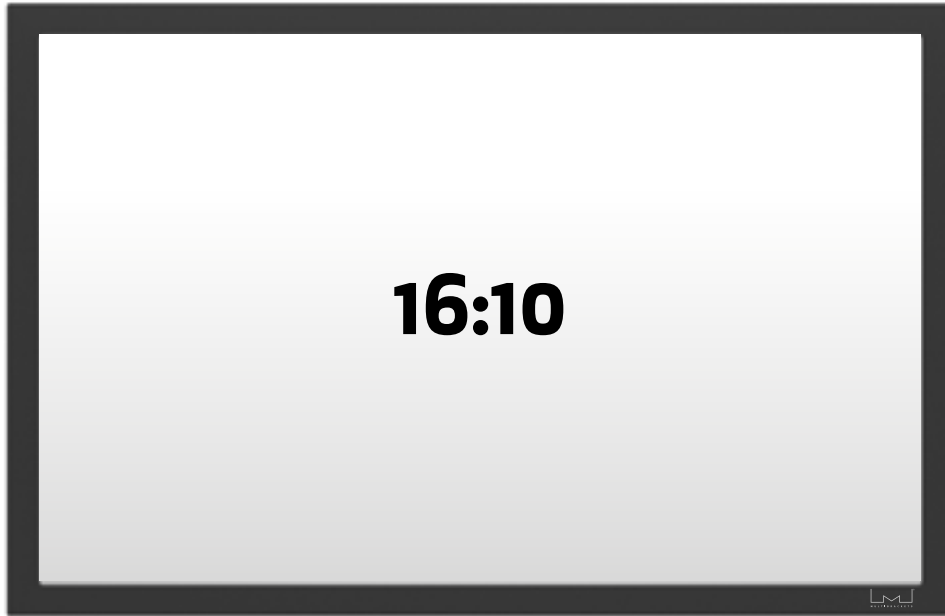

## FRAMED PROJECTION SCREENS

- Multiple aspect ratios available: 16:9, 16:10 and 2.35:1
- Highly versatile 1.0 flat-tensioned screen material with standard black backing to eliminate light penetration.
- Aluminum contour frame surfaced with black velvet to enhance picture contrast and absorb light overshoot.
- Slide-on wall mount is horizontally adjustable for easy centering.
- Designed for high performance Home Cinema Projectors.

# M GREY PLUS EXTRA CLOTH

## GET THE BEST PICTURE QUALITY FOR THEIR FIXED FRAME SOLUTION

This projection screen surface is optimized for any user striving to get the best picture quality for their fixed frame solution. Overall the M Grey Plus generally provides higher contrast and better colour rendition than a standardized matte white projection screen surface.

The grey screen surface is the perfect choice when video images are the main source of information being projected and where ambient lighting is moderately controlled. With its specially designed grey base surface and a reflective top surface, this screen material is able to provide very good black levels without sacrificing the white level output. With its enhanced black levels and brilliant white levels, this screen surface provides deep life-like colours and greater detail and sharpness to the image.

M Grey Plus projection screen surface ensures a dramatic improvement of contrast display for any projector.

M Grey Plus is available in all fixed framed screens sizes, and is purchased separately.

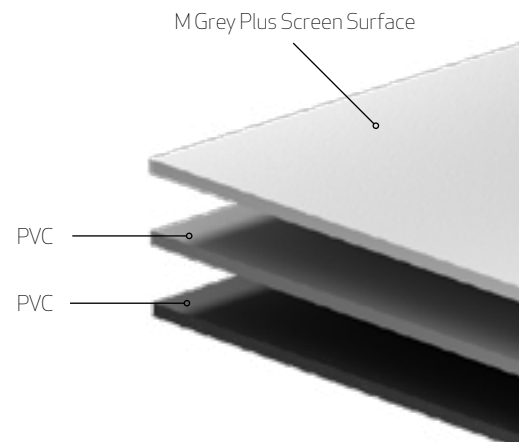

### GAIN: SCREEN REFLECTIVITY

The image luminance is the overall image brightness created by the combination of projector output and screen reflectivity. Projection screens vary in their reflective properties. The reflective neutral matte white screen is typically 1.0 gain but can vary as high as 1.4 in its reflectivity. Negative gain projection screens are designed to enhance

contrast levels at the expense of having less reflectivity. They are typically measured between 0.5 to 0.9 gain. Ambient Light Rejecting or ALR projection screens typically perform in the realm positive gain, or anything higher than 1.0 to 1.8 gain. These screens are known for superior brightness and image saturation, however they can also be negative gain as heavy contrast layers are incorporated to enhance darkness levels for superior image quality.

## 0.9 GAIN

Negative gain projection screens are designed to enhance contrast levels at the expense of having less reflectivity.

- Multi-layer PVC (Polyvinyl chloride) with texture and surface coating
- Surface can be cleaned with mild soap and water
- Exceptional picture quality

## Mission

Le Screen's mission is to make High-end Quality Projection Screens available to every budget without compromising the product quality.

**PORTABLE PROJECTION  
SCREENS**

# M PORTABLE PROJECTION SCREEN EXTREMELY LIGHTWEIGHT AND PORTABLE

## SUITABLE FOR PROFESSIONAL USE FOR PEOPLE ON THE GO

Our portable projection screens are designed to be easy to bring along. The screen unfolds with a scissor like structure, making it easy to use in cramped up places. These screens are easy to use, lightweight and truly portable. Perfect if you are on the go.

## PORTABLE PROJECTION SCREENS

- The flexible tensioning arms makes it possible for the screen to unfold with precision and quality
- The M Portable Projection screen has two rotatable feet ensuring stability
- An extra strong case makes the unit handle travelling with ease
- Available with aspect ratios 16:9, 16:10, 4:3 and 1:1
- Available from 54" to 100"

## SET UP AS EASY AS 1-2-3

High Quality 3-Layer Screen Cloth  
anti-wrinkle and tear resistant

Cleanable Screen Material  
for easy maintenance

Flexible Tensioning Arms  
make it possible for the screen to unfold  
with precision and quality

Aluminum Case with Built-in Carrying Handle  
for safe and convenient transport

Locking Latches  
for added safety during transport

Rotable Feet  
for stability

**CHOOSE THE RIGHT MOUNT  
FOR YOUR PROJECTOR:**

**PROJECTOR  
CEILING MOUNTS**

# PROJECTOR CEILING MOUNTS

## INDUSTRY-LEADING PROJECTOR MOUNTS WITH FINE TUNE TECHNOLOGY FOR CEILING INSTALLATIONS.

Le Screen Projector Ceiling Mount series 200/ 500-800/ 600-1000/ 900-1600/ 1600-3000 with Fine tune offers an industry-leading projector mount for ceiling installations. The series minimizes installation time, simplify maintenance and offers a sought after fine tune adjustment alignment with 3-axle angles. This model also offers an anti-theft security feature.

The M Universal Projector Ceiling Mount 200 with Fine tune give you easy placement of your projector in the most discreet setting possible. You can orient and incline according to several axes. The model features integrated cable management, easy fine tune settings adjustments, once the projector is in place. This projector mount has a minimum of surface area to the projector good for not trapping heat close to your projector thus not cutting your projector lamps lifetime.

The built in fine tune technology provides easy fingertip positioning capabilities which automatically adjusts the projectors position. That way you can always be sure to get a well balanced position for your projector after installing it. This does not only save installation time but also make room for possible changes of what projector is being used or how your projection screen is positioned, perfect if you anticipate changing projectors in the future. The arms holding the projector are articulated and telescopic to adopt to almost all projector models.

Le Screen Projector Ceiling Mount series 200/ 500-800/ 600-1000/ 900-1600/ 1600-3000 with Fine tune offers an industry-leading projector mount for ceiling installations. The series minimizes installation time, simplify maintenance and offers a sought after fine tune adjustment alignment with 3-axle angles. This model also offers an anti-theft security feature.

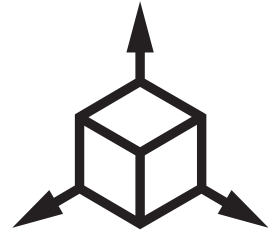

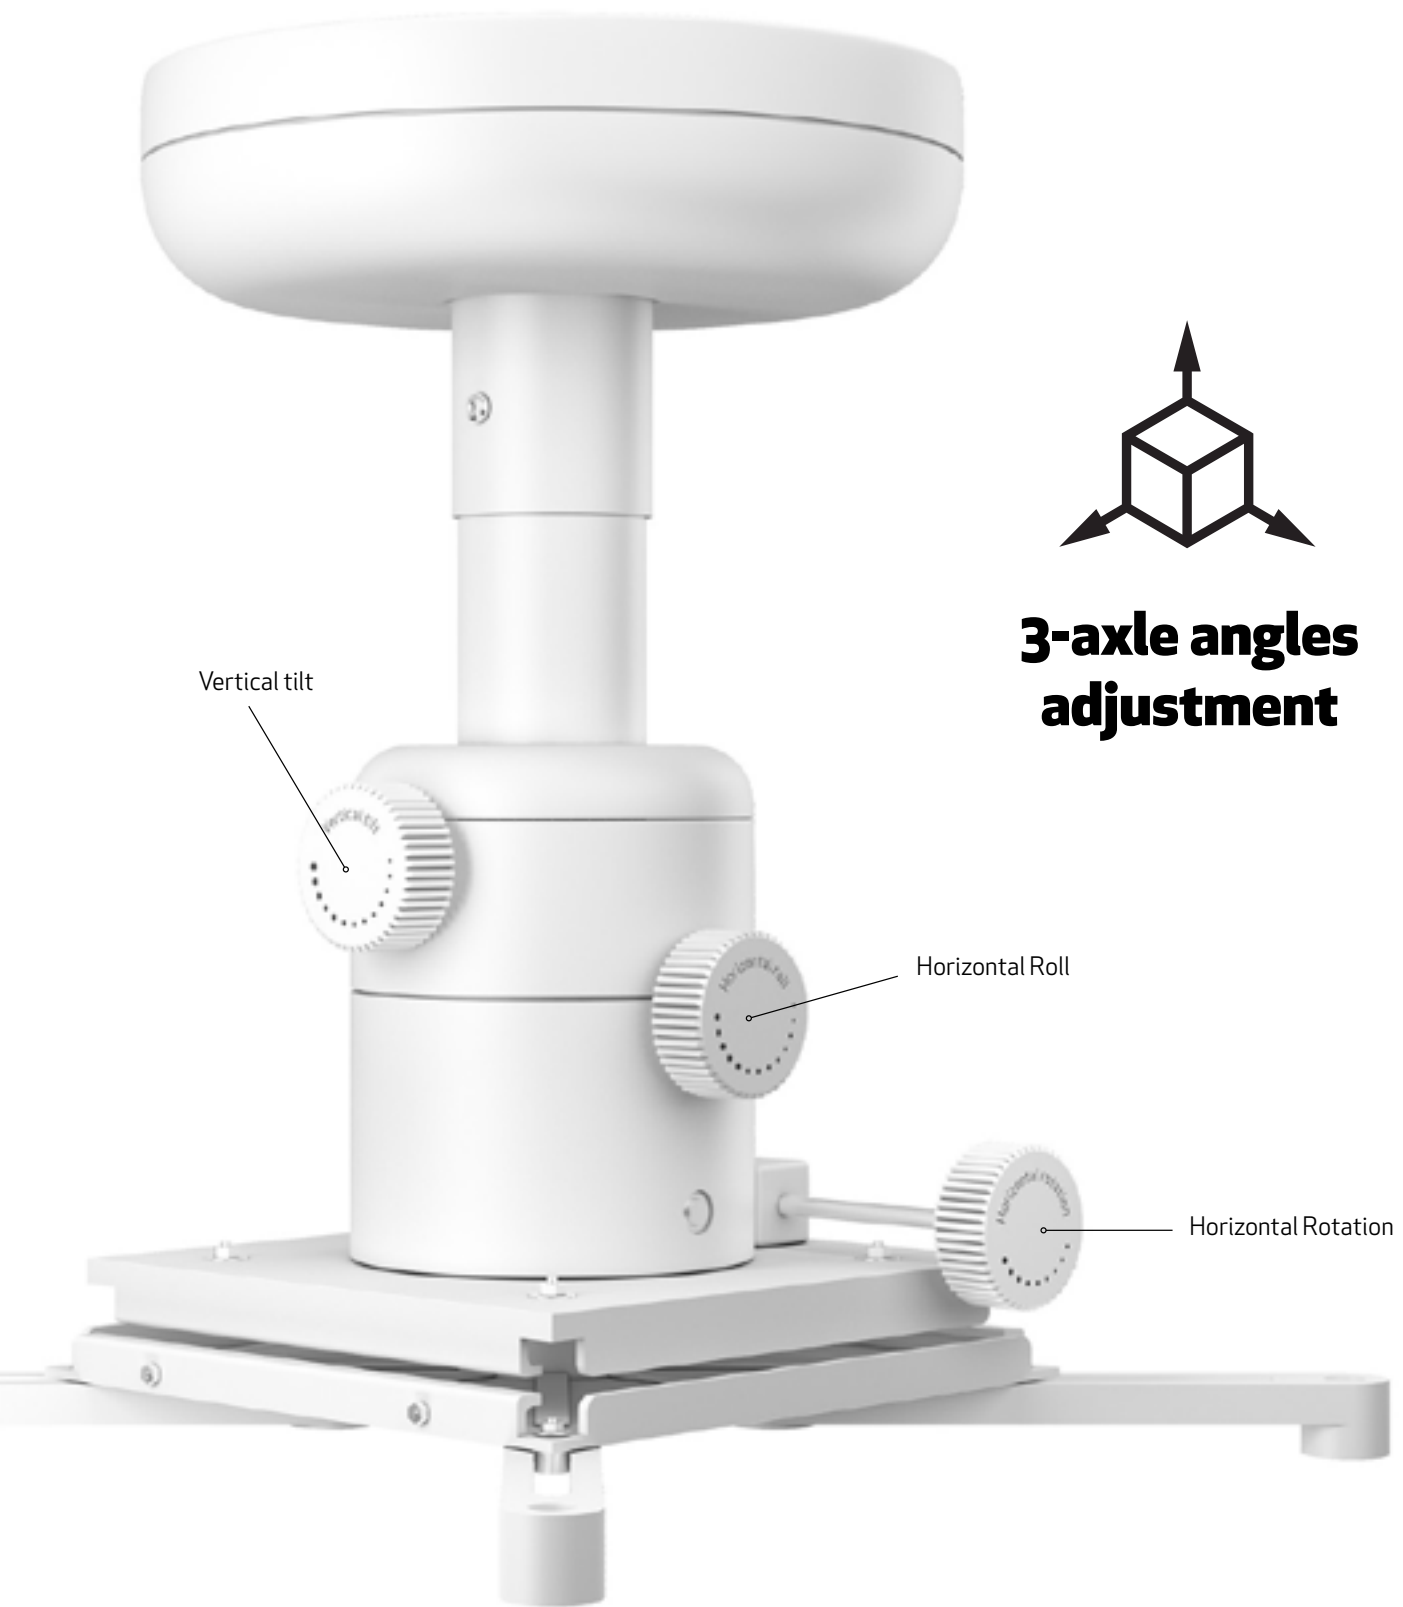

There is a reason why this series of projector mounts quickly has become one of Le Screen top selling product lines.

### HIGHLIGHTS:

- Fast installation with innovative design
- Ideal for those who wish to use it with more than one brand projectors, or who anticipate changing projectors in the future
- Projector position from the ceiling
- Integrated lateral shift
- Telescopic slide extension
- Fine tune adjustment alignment with 3-axle angle
- Integrated cable management system for concealing cables
- Product: Includes arm and projector mount (complete)
- Ceiling: Includes hardware for a complete installation for nearly any ceiling
- For faster installation the unit comes partially pre assembled
